CALVOTER VOTER HISTORY FILE

Vote history data is sent in a tab-delimited text file, using the standard CalVoter registrant transaction format (87 fields). (The LEMS system automatically appends this data to all LOAD files.)

File Naming Convention: XX#####A.txt, where XX represents the county number and ##### is a six-digit number that increments with each file and A is an upper case alpha character to indicate the type of file (LOAD, UPDATE, VOTE HISTORY, etc) sent. For example, if the last file Monterey County sent was 27000257H.txt, the next file should be named 27000258H.txt.
