

# Nevada County

## Change To Project Documentation Plan – Staff Report

### Summary

| Nevada County                               | Original Amounts | New Amounts    |
|---|------------------|----------------|
| Staff Recommended Funding Award Amount      | \$866,431.28     | \$743,603.41   |
| VMB Initial Formula Allocation Amount       | \$866,431.28     | \$866,431.28   |
| Required County 3:1 Matching Fund Amount    | \$288,810.43     | \$247,867.81   |
| Estimated Total System Cost                 | \$1,314,818.17   | \$1,382,705.30 |
| <b>Remaining Initial Formula Allocation</b> |                  |                |
| Remaining Allocation Amount                 | \$0              | \$122,827.88   |
| Remaining County 3:1 Matching Amount        | \$0              | \$40,942.63    |

**Vendor:** Hart InterCivic  
Premier Election Solutions

**Hardware/Software:** Hart InterCivic InFusion Software & Tally Software License  
Premier VoteRemote Vote-by-Mail Processing Equipment

**Staff Report:**

At the November 19, 2007, meeting of the Voting Modernization Board, the Board approved Nevada County’s Project Documentation Plan and awarded \$866,431.28 in funding for the reimbursement of the county’s purchase of Hart InterCivic voting system. Nevada County has submitted invoices and received \$703,015.91 in funding for this system.

At the time that Nevada County’s plan was approved the software utility named “InFusion” was not approved for use by Secretary of State. In December 2007, the Secretary of State authorized the use of the “InFusion” data translation program as part of the Hart InterCivic voting system. Nevada County is requesting funding for this software utility. Nevada County is also requesting funding for the purchase of an additional software license of “Tally” to accommodate the need for the eastern part of their county. Additionally, in an effort to assist with the growing number of vote-by-mail voters in their county, Nevada County has purchased the “VoteRemote” signature verification unit to help with the verification of voter’s signatures on vote-by-mail ballots. This new equipment will augment their existing vote-by-mail optical scan system.

Nevada County is requesting the Voting Modernization Board approve the change to their existing Project Documentation Plan to include funding for the additional voting system software and vote-by-mail signature verification equipment.

Please note that the staff-proposed funding award is based upon allowable reimbursement under Proposition 41 for voting equipment hardware and software only. The training/support line item listed in the Premier acquisition paperwork and the envelope printer listed in the Nevada County’s change to their approved plan would not be covered as a reimbursable claim under Proposition 41.

**Staff Recommendation:**

It is our recommendation that Nevada County’s change to their approved Project Documentation Plan be approved and a new Funding Award Letter be issued in the amount of \$743,603.41.
