Re: Certification of 25% Signature Threshold Met - Initiative 25-0007A1

Official Title and Summary: ESTABLISHES ADDITIONAL VOTER IDENTIFICATION AND CITIZENSHIP VERIFICATION REQUIREMENTS. INITIATIVE CONSTITUTIONAL AMENDMENT.

Under current law, when registering to vote, individuals must state under penalty of perjury that they are United States citizens and provide information to verify their identity (e.g., birthdate, driver's license or Social Security number). This measure would amend the California Constitution to further require that: voters present government-issued identification at the polls or the last four digits of a government-issued identification number when voting by mail; the State provide voter identification cards on request; and elections officials annually report percentage of each county's voters whose citizenship they have verified. Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local governments: One-time state and local government costs in the tens of millions of dollars to prepare for implementation of the measure. Increased annual state and local government costs potentially ranging in the tens of millions of dollars to the low hundreds of millions of dollars to fulfill new requirements related to elections administration.

Dear Secretary Weber:

Pursuant to Elections Code 9034, we the proponents of **25-0007A1** hereby certify that at least 25 percent of the 874,641 required number of signatures to qualify this initiative measure for the ballot have been obtained.

We certify under penalty of perjury under the laws of the State of California that the foregoing paragraph is true and correct.

Sincerely,

A handwritten signature in blue ink that reads "Carl DeMaio". The signature is stylized with a large, looping "C" and "D".
