

SHIRLEY N. WEBER, Ph.D.

CALIFORNIA SECRETARY OF STATE

July 14, 2022

County Clerk/Registrar of Voters (CC/ROV) Memorandum # 22174

TO: All County Clerks/Registrars of Voters

FROM: /s/ Susan Lapsley
Deputy Secretary of State, HAVA and Counsel

RE: Voting Systems: OVSTA Monthly Update –July 2022

Each month, the Office of Voting Systems Technology Assessment (OVSTA) provides an update on Election Assistance Commission (EAC) and Secretary of State (SOS) activities related to voting technology.

Each update provides information on:

- Voting technology related events that may be of interest.
- Administrative approval requests and denials since the prior month's update.
- Voting technology testing and approval at the SOS office.
- Defect, failure, and fault reports issued since the prior month's update.
- Ballot printing certification requests since the prior month's update.

Helpful Updates and Reminders

Post-Election Reporting- After every election, California Elections Code requires counties to submit Post-Election reports: One Percent (1%) Manual Tally Report (or risk limiting audit report), Voting Technology Incident Report, and Remote Accessible Vote by Mail (RAVBM) User Report.

The One Percent (1%) Manual Tally Reporting form can be found at <https://elections.cdn.sos.ca.gov/manual-tally/manual-tally-report-form.pdf> on the Secretary of State's website. The recommended RAVBM User Report and Voting Technology Incident Report forms can be found below. If your county did not have any voting technology incidents, you may state "No Incidents" in the description portion of the reporting form. Please submit the reports to OVSTA via email at VotingSystems@sos.ca.gov.

Jurisdictional Use of Ballot On Demand Systems- As a reminder, California Code of Regulations section [20274](#), requires a jurisdiction to submit an updated application and updated procedures for use of a ballot on demand system any time that any of the approved procedures for use are modified or changed. The Secretary of State will approve the modification(s) and/or change(s) for the jurisdiction to use the ballot on demand system if the Secretary of State determines the jurisdiction's proposed procedures for use meet all the requirements set forth in California Elections Code and the regulations. If applicable to your jurisdiction, please submit an updated application to Votingsystems@sos.ca.gov.

Ballot Release Forms- Any jurisdiction wishing to purchase ballot cards from a ballot printer, shall request in writing a ballot release from the Secretary of State per California Code of Regulations sections [20233](#) and [20234](#). To request a ballot release number, email the Secretary of State's office at ballotrelease@sos.ca.gov for the Ballot Release Form. Once the form is completed and emailed back to our office, a Ballot Release number will be issued.

Tint and Watermark Assignment Requests- California Code of Regulations section 20280, requires any jurisdiction conducting an election in California to request a ballot tint and watermark from the Secretary of State's Office. Jurisdictions may submit tint and watermark requests to VotingSystems@sos.ca.gov.

When submitting your tint and watermark requests, please provide the following information:

- 1) The name of the jurisdiction conducting the election.
- 2) The date of the election.
- 3) The title of the election.
- 4) The date of the close of candidate filing for the election, if applicable.
- 5) The date on which the ballot order designation will be determined by a randomized alphabet drawing for the election, if applicable.

Disposal or Sale of Equipment- Regarding the disposal or sale of equipment:

- In 2012, the California Secretary of State issued guidance regarding the disposition or sale of equipment purchased with HAVA and/or VMB funding. Contact OVSTA for additional guidance, including an archived copy of Secretary of State (SOS) County Clerk/Registrar of Voters (CC/ROV) Memorandum #12219 - Handling the Sale and Funds from the Sale of Voting Systems or Voting Equipment. The document outlines proper disposal or sale procedures of voting systems or voting equipment purchased with HAVA and/or VMB funding. The document also highlights that all equipment must be void of any software or firmware and returned to a condition of a non-functioning piece of hardware prior to its disposal or sale.

See also the US-CERT issued Security Tip (ST18-005) outlining proper disposal procedures for electronic devices.

Election Record Retention- As a reminder, pursuant to California Elections Code sections 17301-17306, the retention and preservation of election records, which includes digital ballot images, is six months for state or local elections and 22 months for elections of federal offices. Several voting system tabulation components are capable of producing digital ballot images. Additional information regarding how to backup, retain, and preserve the digital ballot images, and whether or not your jurisdiction's voting system has this capability, can be found in the respective Use Procedures, at <https://www.sos.ca.gov/elections/ovsta/voting-technology-vendors/>.

Further, pursuant to Elections Code section 15209, any magnetic or electronic storage medium used for the ballot tabulation program and any magnetic or electronic storage medium containing election results shall be kept in a secure location and shall be retained for six months following any state or local election and 22 months following any federal election or so long thereafter as any contest involving the vote at the local, state or federal election remains undetermined.

Testing and Certification at the EAC

The EAC provides updates on voting system testing. The last update was made in April of 2022. Based upon discussions with vendors, no systems currently undergoing testing and certification at the EAC are relevant to California.

Additional information regarding each voting system are available at: "[Voting Systems Under Test](#)" and "[Certified Voting Systems](#)".

On May 16, 2022, the EAC held their annual Board of Advisors meeting. They discussed the next steps regarding VVSG 2.0 and implementation, the status of the EAC's e-poll book pilot program, and threats against election officials.

More information regarding the EAC's events and meeting can be located at <https://www.eac.gov/events/2022> on the EAC's website.

Voting Technology Certification and Administrative Approval Requests

OVSTA receives and reviews applications for certification and administrative approval testing from voting technology vendors on a continuous basis. The status of current applications can be found below:

Applicant	System Version	Voting Technology	Submission Date	Type of Testing	Testing Phase
Hart	Verity Voting 3.2	Voting System	01/14/22	Full Certification	Pre-Testing
ES&S	Version 6.3.0.2	Voting System	02/14/22	Full Certification	Pre-Testing

Voting System Certification and Approval Requests

OVSTA received an application for testing and certification of the Hart Verity Voting 3.2 voting system. The system is currently in the pre-testing phase.

OVSTA received an application for testing and certification of the Election Systems and Software (ES&S) EVS 6.3.0.2 voting system. The system is currently in the pre-testing phase.

A list containing certified voting system vendors can be found at <https://www.sos.ca.gov/elections/ovsta/voting-technology-vendors>.

Remote Accessible Vote By Mail System Certification and Approval Requests

No RAVBM system applications were submitted to OVSTA in June.

A list containing certified remote accessible vote by mail system (RAVBMs) vendors can be found at <https://www.sos.ca.gov/elections/ovsta/voting-technology-vendors/> .

Electronic Poll Book Certification and Approval Requests

No ePollbooks system applications were submitted to OVSTA in June.

A list containing certified electronic poll book vendors can be found at <https://www.sos.ca.gov/elections/ovsta/voting-technology-vendors/>.

Ballot on Demand Printing Certification and Approval Requests

No ballot on demand system applications were submitted to OVSTA in June.

A list of certified ballot on demand systems can be found at <https://www.sos.ca.gov/elections/ovsta/certification-and-approval/ballot-printerballot-demand-bod-certification/>.

Ballot Printing Certification and Approval Requests

OVSTA received an application from Phoenix Graphics, Inc, requesting certification for printing of ES&S Electionware, Dominion ImageCast, and Hart Verity ballots. The application has been approved.

A list of certified ballot printers can be found at <https://www.sos.ca.gov/elections/ovsta/certification-and-approval/ballot-printerballot-demand-bod-certification/>.

Defects, Faults, Failures and Other Error Reporting

Voting Technology Incidents- As a reminder, California Elections Code, California Code of Regulations, and conditions of certification, require jurisdictions to submit the following reports regarding any incidents, which includes the defect, fault, or failure of any voting system, ePollbook or RAVBM system or ballot printer:

- Notification of any voting system defect, fault, or failure within 30 days of discovery (California Election Code [Section 19210](#)).
- Notification of any RAVBM defect, fault, or failure within 30 days of discovery (California Election Code [Section 19284](#)).
- Notification of any ePollBook breach, attempted breach, defect, failure or fault within 24 hours of discovery (California Code of Regulations [Section 20161](#)).
- Notification of any ballot card printing flaw or defect within 2 days of discovery (California Election Code [Section 13004](#)).

The recommended reporting form can be found below.

The following defects, faults or failures were reported to OVSTA in June.

King County and Runbeck Election Services

During the official canvass period, Kings County discovered a misprint of 23 ballots. Upon further investigation, Runbeck identified the issue as a result of human error during a standard procedure of re-printing ballots that had been damaged during the insertion phase of Runbeck's printing process. Of the 23 affected ballots, 8 ballots were returned to the elections department. Those 8 ballots were verified as having all the correct contests and were counted. The remaining 15 ballots were never returned by the voters.

San Joaquin and K&H Integrated Print Solutions

During the vote-by-mail canvass period, San Joaquin County discovered that there was an issue with the printing of their vote by mail ballots. The county's voting system was rejecting 25-30% of the returned vote by mail ballots. With the assistance of K&H, San Joaquin County was able to identify the affected ballots and duplicate them per the requirements of Elections Code § 15210. San Joaquin County is currently still working with both their ballot printer and voting system vendor to identify the root cause of the issue.

Additionally, on June 1, 2022, San Joaquin County discovered that the contests for three judges were erroneously included on the official ballots for the June 7th, 2022 Primary Election. For these three contests, all candidates were the incumbents, and were the only candidates to submit nomination papers for the respective offices. The county notified the three judges of the error.

Print Form

Voting Technology Incident Reporting Form

Use the following form to report any voting technology incident that occurred during use. Voting technology incidents include, but are not limited to, issues such as paper jams, printing errors, or any defect, fault or failure pursuant to Election Code sections 19215 and 19290, and California Code of Regulations section 20161.
