County Clerk/Registrar of Voters (CC/ROV) Memorandum # 22239

TO: All County Clerks/Registrars of Voters

FROM: /s/ Jason Rosales  
Associate Governmental Program Analyst

RE: General Election: Statewide Database Requirements

Elections Code section 21000 requires that for every election, county election officials provide “any information and statistics that may be necessary for use in reapportionment.” The Legislature has designated the Statewide Database as the entity to receive and manage this information.

## NEW THIS ELECTION CYCLE

In order to streamline this process, the Secretary of State office will be obtaining the following required information from the statewide voter registration system, VoteCal.

1. **Election Day registration file**
2. **Voter History for the 2022 General Election**
3. **Final list of precincts within districts and cities in electronic form**
4. **List of all polling places and their addresses**

Attached is a checklist of the data the Statewide Database would like to receive from the counties by **October 11, 2022**, and a list of data it would like to receive by **December 8, 2022**, along with instructions for how to send the data.

If you have any additional questions, please contact the Statewide Database directly at the number/email address below:

## For County Submission in Compliance with Elections Code section 21000

### **Checklist of data to submit to Statewide Database by October 11, 2022**

- ✓ **Registration Precinct and Sub-Precinct Maps:** Please provide GIS shape and street files or a complete set of paper maps. If you provide paper maps, please send a precinct-to-map page guide.
- ✓ **List of Precincts changed between the 2022 Primary Election and the 2022 General Election.** For each precinct changed, identify the reason for the change (e.g., new, abolished, annexation, etc.), the number of voters affected, and the map page for the precinct.

### **Checklist of data to submit to Statewide Database by December 8, 2022**

- ✓ **Statement of Vote (SOV) / By-Precinct Report of Voting Results in electronic form.** If possible, please provide in **text file (.txt)** or **excel (.xls) format**. The report should include each precinct's results broken down by vote-by-mail and poll ballots cast for each proposition and candidate. Additionally, please include total registration and total votes cast by vote-by-mail and poll precincts. Do not redact any precinct totals. Please note that election officials are required to be capable of reporting the SOV/By-Precinct Report of Voting results in an electronic form - a scanned copy of a hardcopy will not suffice - please provide the actual file.
- ✓ **Party total registration broken down by precinct.**
- ✓ **Consolidation list (voting precinct to registration precinct) in electronic form. Please include any zero voter registration precincts and their associated voting precincts.**
- ✓ **Final list of precincts within districts and cities in electronic form.**
- ✓ **Master street index (address-to-precinct-assignment file) in electronic form only.**
- ✓ **Precinct listing that identifies vote-by-mail precinct by regular precinct and ballot type.** If consolidations are used, please provide this list by voting precinct.

**Please provide documentation for all files sent in electronic form, including format sheets with a list of fields and their contents where applicable.**

Please upload the data to <https://swdb.link/q22>
