County Clerk/Registrar of Voters (CC/ROV) Memorandum #23054

TO: All County Clerks/Registrars of Voters

FROM: /s/ Danielle Dawson  
Office of Voting Systems Technology Assessment

RE: Regulations: Ballot Counting

The Secretary of State is providing notice of changes to the Ballot Counting regulations originally published on May 19, 2023. The Secretary of State is proposing amendments to the originally noticed proposed regulation text based upon comments received during the initial 45-day public comment period that ended on July 5, 2023.

## **Written Comment Period on Proposed Modifications: July 7, 2023 – July 24, 2023**

Any interested person, or their authorized representative, may submit written comments pertaining to the changes in the text of the proposed regulations. The Secretary of State will accept written comments on the changes from July 7, 2023, through July 24, 2023. The Secretary of State will consider only comments received by the Secretary of State's office by that date.

Following the close of the written comment period, the Secretary of State, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals provided by the public or may modify such proposals if such modifications are sufficiently related to the originally-proposed text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available from our office for 15 days prior to its adoption and will be provided to those persons who submit written comments related to this proposal or who have requested notification of any changes to the proposal.

The Notice of Modification to Proposed Regulations and the text of the proposed regulation, with changes identified in double underline and double strikeout, can be accessed through the Secretary of State's website at <https://www.sos.ca.gov/administration/regulations>.

Questions or written comments should be directed to the Office of Voting Systems Technology Assessment, Attn: Danielle Dawson at: (916) 695-1680 or email [votingsystems@sos.ca.gov](mailto:votingsystems@sos.ca.gov).

The Secretary of State will review all written comments that it has received by the close of the public comment period and that pertain only to the indicated changes to the modified text and/or documents and other information added pursuant to this notice. The Secretary of State will include the comments in the public rulemaking file and will summarize and respond to relevant comments in the Final Statement of Reasons.

**California Secretary of State  
Proposed Regulatory Action:  
Ballot Counting  
Proposed Regulation Text  
Addendum to the Initial Statement of Reasons**

This Addendum to the Initial Statement of Reasons addresses updates to the proposed regulation text, which was originally submitted for a 45-day public comment period May 19, 2023, through July 5, 2023, and for which a public hearing was held on July 3, 2023. Changes to the originally proposed regulation text have been made based upon comments received during the 45-day public comment period and the public hearing.

**The factual basis and rationale of the following sections of the proposed regulations are modified as follows:**

20281. Definitions

Subsection 20281(a) was modified to remove the phrase “, or one which has been marked with an unreadable marker, or one which has been consistently marked outside of the “read” area of the ballot scanner.” The removal of this language more clearly identifies what constitutes a “blank ballot” and is intended to eliminate voter or observer confusion during the tabulation of ballots.

20298. General Provisions

Subsection 20298(c) and 20298(d) was modified to renumber referenced Chapters 4.7 and 4.8. In the originally-noticed proposed regulation text, these chapters were mistakenly swapped. Subsection 20298(c) should have been citing Chapter 4.8 of the regulations and subsection 20298(d) should have been citing Chapter 4.7 of the regulations. This is a non-substantive change and corrects a clerical error.

20299. Manual Tally Plan

Subdivisions 20299(a) and 20299(b) outlines the timeline for approval or rejection of the manual tally plan. These subsections were modified to update the 120-day submission deadline to 80-days prior to the election and the 90-day review period deadline to 70-days prior to the election. This modification was necessary because elections officials are still completing candidate filing 88-days prior to an election and would not have sufficient information about the election to properly and fully develop the manual tally plan prior to 120 days. The 70-day review period deadline was determined to provide the Secretary of State sufficient time to thoroughly review the submitted manual tally plan to ensure it covers all required information, has sufficient details, and complies with state and federal election laws. The 70-day deadline also provides the elections official with an approval or rejection notice with sufficient time ahead of the election.

Subdivision 20299(d) was modified to include the condition that the Secretary of State shall provide in writing a list of any deficiencies in the manual tally plan when issuing a rejection of the initial submission. This is a necessary modification because it requires the Secretary of State to clearly identify issues with the submitted manual tally plan, which in turn provides the elections official with clear guidance on what needs to be modified or addressed in the resubmission of the manual tally plan.

Subdivision 20299(e)(1) was modified to include clarification that the elections official shall post the approved manual tally plan on their website within 5 calendar days of the Secretary of State's approval. This is necessary to provide transparency and public access to information on the process as to how and when the manual tally will occur.

Subdivision 20299(f)(7)(B) was modified to remove the phrase "A scale diagram depicting." The removal of this language is necessary to help clarify that the elections official is only required to include a description of the planned set up of the manual tally location and to eliminate any confusion on needing to provide a scaled replica of the location.

#### 20301. Manual Tally Forms

Subsection 20301(a)(3) was modified to include the requirement of tracking the specific ballot stack number on the manual tally form. This is necessary to maintain the chain of custody and make sure that the exact manual tally forms can be correctly matched to the assigned stack of ballots.

#### 20303. Conducting a Manual Tally

Subsection 20303(f) was modified to remove the condition of a single table and a 10 feet distance between counting boards. This is a necessary modification to provide elections officials with more flexibility for implementation of counting areas. Depending on the secured location, some elections officials may use multiple tables together to accommodate the spacing of the counting boards and may need to increase the space between counting boards to help with reducing the noise between tables.

Subsection 20303(j) was modified to state that unless otherwise directed by the elections official, the counting board supervisor shall distribute the writing devices and manual tally forms used during the conduct of the manual tally. This modification allows for more flexibility in planning and implementation for the elections official but still provides guidance on how to maintain the security of the ballots, writing devices, and tally forms and prevent ballots, writing devices, and tally forms from being lost, changed or modified through mis- or malfeasance of those who will be handling the ballots and the forms.

Subsection 20303(m)(6)(B) was modified to clarify the procedures and duties of the counting board supervisor and counting board members if the manual tally does not match. If the manual tally count does not match for the contest, the counting board supervisor is notified. The counting board supervisor is then responsible for clearly documenting the discrepancies on the old manual tally forms, then shall provide new manual tally forms to the counting board, at which point they shall start the manual tally for the contest over. If the manual tally counts still

do not match after the second attempt, the supervisor is notified, documents the discrepancies, provides new forms and joins the counting board for the third tally. If the third attempt does not match, the elections official must have a process in place to resolve the discrepancy. All of the forms are clearly marked and kept with the stack of ballots. This is necessary to ensure complete ballot accounting, full documentation of the process, maintenance of the chain of custody and accuracy of the tally.

Subsection 20303(n)(3) was modified to provide the elections official with more flexibility in establishing the procedures for collecting all of the ballots, manual tally forms, and writing devices for the manual tally upon conclusion. This is necessary to ensure complete ballot accounting, documentation of the process, maintenance of the chain of custody and accuracy of the tally.

#### 20306. Reporting Elections Results by Manual Tally

Subsection 20306(c)(4) was modified to clarify that the report of results submitted to the Secretary of State shall include the vote results for all qualified political party presidential candidates during a presidential primary election. The previous version of the proposed regulation text only identified Democratic and Republican candidates, however there are currently six qualified political parties in California. This modification is necessary to ensure that all results for all qualified political party presidential candidates are accurately reported to the Secretary of State during the semifinal official canvass and complying with all statutorily required information, including specific information dependent upon the type of election.

Subsection 20306(d) was modified to fix a grammatical error. A comma was in a place in which a period should have been used. This is a non-substantive change.

#### 20307. Observing the Manual Tally

Subsection 20307(b) was modified to clarify that the elections official has the authority to require election observers to wear identification badges. Subsection 20307(b) is necessary because it provides the elections officials with the ability to keep track of all persons who have access to the facility in which the manual tally is conducted for security reasons. By making observers wear an identification badge, an elections official will be better able to clearly identify individuals who are authorized to enter certain area, handle ballots, and participate in the conduct of the manual tally, versus individuals who are only present to observe.

#### 20313. Selection of Ballots to Tally

The title of Section 20313 was modified to clarify that the section pertained to the selection of ballots for the manual tally. This was a non-substantive change to the section title.

#### 20315. Reporting of Results

Subsection 20315(a) was added to provide further clarification that the elections official shall publish a report of the results of the manual tally on their website for the public immediately

upon conclusion of the one percent manual tally but before certification of the results. This is a necessary addition to provide further transparency for the public with the one percent manual tally process and allows for public review of the one percent manual tally results prior to the close of the official canvass period and certification of election results.

Subsection 20315(a) was modified to be renumbered as subsection 20315(b) to accommodate the addition of subsection 20315(a). This is a non-substantive change.

Subsection 20315(b) was modified to be renumbered as subsection 20315(c) to accommodate the addition of subsection 20315(a). This is a non-substantive change.

Subsection 20315(c) was modified to be renumbered as subsection 20315(d) to accommodate the addition of subsection 20315(a). This is a non-substantive change. Additionally, this subsection was modified to add in the clarification that the report posted in subsection 20315(a) and the report submitted by the elections official in subsection 20315(b) for the one percent manual tally shall contain that same information. This is necessary to establish clear reporting requirements for the one percent manual tally to ensure uniform compliance across the 58 California counties and to comply with state law.

#### 20353. Material To Be Examined; Relevant Material.

Subsection 20353(c) was modified to provide further clarification that the elections official shall make public by posting on their website, any established reasonable guidelines for the examination of relevant material pertaining to a recount. This is a necessary addition to provide further transparency for the recount process in addition to providing easier access to information for public participation in the recount process.

#### 20361. Media, Photography and Recording Devices

Subsection 20361(a) was modified to provide further clarification that the elections official shall make public by posting on their website, their written policy regarding media, photography, and recording devices during a recount process, prior to each statewide election. This is a necessary addition to provide further transparency for the recount process in addition to providing easier access to information for public participation in the recount process.

#### 20370. Recounts Using the Type of Vote Tabulating Devices Used In the Election

Subsection 20370(d) was modified to fix a clerical error. In the previous proposed regulation text, section 20816 was referenced in the subsection. However, the correct section number should have been 20356 to properly account for the proposed renumbering of sections in the proposed regulation text. This is a non-substantive change.

**California Secretary of State  
Proposed Regulatory Action:  
Ballot Counting  
Amended Proposed Regulation Text**

The Proposed Regulation Text was originally submitted for a 45-day public comment period on May 19, 2023. A public hearing was held on July 3, 2023, and public comments were received during the 45-day public comment period that ended on July 5, 2023. This version of the proposed regulation text reflects edits to the proposed regulation text based upon comments received during the 45-day public comment period and the public hearing.

In the originally-noticed text of regulations, all proposed revisions and edits were shown using ~~strikeout~~ for any text proposed for deletion and underlining for any text proposed to be added. All new proposed revisions and edits to the originally-noticed text of regulation are shown below using ~~strikeout~~ for any text proposed for deletion and underlining for any text proposed to be added.

**TEXT OF PROPOSED REGULATIONS**

**CCR Title 2, Division 7, Chapter 8.3, Article 8. Uniform Vote Counting  
Standards-move to new chapter 4.5 Ballot counting start with 20290**

**209280. Purpose of This Chapter Article**

The purpose of this ~~Chapter article~~ is to provide standards to define the circumstances under which “marking” of a ballot constitutes a vote and when a vote will or will not count ~~for each category of voting system certified and in use~~ in California.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Section 12172.5, Government Code.*

**209281. Definitions**

As used in this ~~Chapter Article~~, the following words have the following meanings:

- (a) A “blank ballot” is a ballot on which the voter has made no marks in any voting position target, ~~or one which has been marked with an unreadable marker, or one which has been consistently marked outside of the “read” area of the ballot scanner.~~
- (b) “Candidate” means a person who is seeking nomination or election to a specified office and who either has met the legal requirements to have their name printed on the ballot or is eligible to have their name written in on the ballot and counted as the voter's choice for the contest.
- (c) A “damaged ballot” is a ballot that has been torn, bent, or otherwise mutilated or rendered unreadable such that it cannot be processed by the ballot tabulating equipment designed for use with the ballot.
- (d) A “duplicated ballot” is a ballot which is a true copy of the originally cast ballot. It is created when damage, improper marking or some other action/defect prevents the original ballot from being read by a ballot tabulating machine and is used to properly process and count the votes originally cast by the voter. A duplicated ballot also is necessary for a ballot cast using a remote accessible vote-by-mail ballot.

- (e) A “listed candidate” is a candidate whose name appears on the ballot at the time the voter received the ballot, as opposed to a write-in candidate.
- (f) A “measure” is a ballot proposition, which appears on a ballot and requires voter action in order to enact or reject a proposed law.
- (g) An “overvote” occurs when a voter marks more than the maximum number of voting position targets allowed in the contest.
- (h) “Personal information” shall have the meaning set forth in Elections Code section 14287.
- (i) An “undervote” occurs when a voter marks less than the maximum number of voting position targets allowed in a contest.
- (j) A “voting position target” refers to that area of the ballot adjacent to each candidate or measure, or that area of the ballot, specifically designated to record the voter's choice for that contest. The term applies to all types of voting position targets on ballots, regardless of what form they may take, including, but not limited to, rectangle, oval, circle, square, hole punch, cross punch, slotting and open arrow.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Sections 303.3, 14287 and 15210, Elections Code; Section 12172.5, Government Code.*

## **209282. General Vote Counting Standards**

The following general standards shall apply in the counting of all ballots and votes, regardless of the ~~voting system~~ vote tabulation method used, for ~~both~~ the initial count, 1 percent manual tally, and ~~for~~ any recount.

- (a) A ballot that is not marked as provided by law must be segregated and counted in the manner directed by the elections official and as required by law. Any ballot that contains personal information, or that is torn, bent, or mutilated shall be segregated as directed by the elections official and a duplicate ballot shall be prepared pursuant to Elections Code section 15210. A ballot that contains marks or markings not related to an indication of the vote choice for a contest and that are not personal information shall be counted. Duplication is not required unless the ballot contains personal information, or the condition of the ballot or markings on the ballot interfere with the ability of the vote tabulation equipment to tally the ballot.
- (b) A vote for any candidate or ballot measure shall not be rejected solely because the voter failed to follow instructions for marking the ballot. If, for any reason, it is impossible to determine the choice of the voter for any candidate or ballot measure, the vote for that candidate or ballot measure shall be considered void.
- (c) A mark is considered valid when it is clear that it represents the voter’s choice and is the technique consistently used by the voter to indicate his or her their selections.
- (1) Such marks may include, but are not limited to, properly filled-in voting position targets, checkmarks, X’s, circles, completed arrows, or any other clear indication of the voter’s choice, such as the word “yes” next to a candidate’s name or a voting position target for a ballot measure.

(2) Conversely, a mark crossed out by the voter, or the word “no” next to a candidate’s name or a voting position target for a ballot measure shall not be considered a valid vote but will, instead, be deemed an indication that the voter did not choose to cast a vote for that candidate or measure.

(d) In determining the validity of a partially filled-in voting position target, the consistency of a voter’s marks on the entire ballot shall be taken into consideration. A “hesitation mark” such as a dot in the voting position target shall not be considered a valid mark unless it is demonstrated that the voter consistently marked his or her their ballot in such a manner.

(e) If a contest is marked with more choices than there are offices to be filled or measures that may prevail, the vote shall not be counted for that contest, but shall be counted in all other contests in which there is no overvote and the voter's choice can be clearly determined.

(f) If a contest is marked with fewer choices than there are offices to be filled or measures that may prevail, the vote choice(s) for all otherwise properly marked candidates or measures shall be counted.

(g) Write-in votes shall be counted pursuant to the provisions established in Elections Code sections 14420, 15342 and 15342.5.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Sections 13204, 14287, 14420, 15154, 15208, 15210, 15342, ~~and~~ 15342.5, and 15360, Elections Code; Section 12172.5, Government Code.*

### **209283. Optical Scan Voting Systems**

(a) When optical scan technology is used to count the votes on a ballot, the provisions of this section shall apply.

(b) The following standards shall be used to determine whether there is a clear indication on the ballot that the voter has made a definite choice. The examples used in this section refer to the “voting position target” as defined in section 20981. The same principles demonstrated in the examples below shall apply to all types of voting position targets on optical scan ballots, regardless of what form they may take (e.g., rectangle, oval, circle, square, open arrow).

(c) A voter’s choice shall be considered a valid vote if the voter:

(1) Indicates their vote choice by consistently filling inside the entire voting position target.

(2) Indicates their vote choice by consistently filling in less than the entire voting position target for all vote choices on the ballot and the ballot is processed in a manner consistent with the use procedures provided and approved for the voting system used in the county.

(3) Indicates their vote choice by consistently placing a distinctive mark, such as (X) or (√) or (←), inside the associated voting position target for a candidate choice or ballot measure.

(4) Indicates their vote choice by consistently placing a distinctive mark, such as (X) or (√) or (←), in the corresponding space directly above, below or beside the associated voting position target for a candidate or ballot measure.

(5) Marks their vote choices by encircling the entire voting position target for a candidate or ballot measure, or the candidate’s name or Yes/No option for a measure.

- (6) Indicates a voting error correction by using correction tape, strikeover, white-out or generic written note of instruction and marks another vote choice for the same contest on the ballot.
- (7) Writes in a qualified write-in candidate's name, or a reasonable facsimile of the spelling of the name, in the designated write-in spaces directly below the list of candidates for that office and marks the associated write-in voting target position.
- (8) Writes in a listed candidate's name in the designated write-in space and marks the associated write-in voting target position. In such case, the vote shall be counted as a single vote for the listed candidate.
- (9) Marks a voting target position for a listed candidate and also enters the listed candidate's name in the designated candidate write-in space. In such case, the vote shall be counted as a single vote for the listed candidate.
- (10) Writes in a qualified write-in candidate's name, or a reasonable facsimile of the spelling of the name, on the secrecy sleeve envelope or stub and indicates the contest for which the vote is being cast, in the case of voting systems where write-in spaces appear separately from the list of candidates for an office and do not provide voting position targets.
- (d) A voter's choice shall be considered an invalid vote if the voter:
- (1) Uses random markings, indentations, punctures, ~~or~~ impressions, squiggly line, ~~dimpled~~ or crimp marks, pinholes, or pinpricks on a ballot, and there is no distinctive and consistent voting pattern to clearly indicate the voter's choice(s).
  - (2) Indicates vote choice by filling in less than the entire voting position target, and the voter has not consistently marked the entire ballot in the same manner, making the voter's choice unclear.
  - (3) Inconsistently places a mark above, below, or beside the associated voting position target on a ballot, instead of inside the voting position target, and the voter's choice cannot be clearly determined.
  - (4) Writes in the name of a person who has not qualified as a write-in candidate.
  - (5) Writes in a listed candidate's name in the designated write-in space and fills in the associated voting position target for a different listed candidate in the same contest.
  - (6) Writes in a candidate name that is unrecognizable/undecipherable and it cannot be determined for whom the vote is intended to be cast.
  - (7) Writes in a qualified write-in candidate's name in the designated write-in space and does not fill in the associated voting position target for the write-in candidate. However, in the event of a manual tally pursuant to Title 2, Division 7, Chapter 4.6 of the California Code of Regulations, or a manual recount, pursuant to Elections Code section 15342.5 if the intent of the voter can be determined, the vote shall be counted regardless of whether the voter has filled in the associated voting position target for the write-in candidate.
  - (8) Uses pressure-sensitive stickers, rubber stamps, glued stamps, or any other device not provided for in the voting procedures for the approved voting system used by the county to indicate the name of the voter's choice for a write-in candidate.

(e) If the voter leaves the voting booth without casting the ballot, the precinct official shall cause the ballot to be cast without examining the ballot.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Sections 15154 and 15342.5, Elections Code; Section 12172.5, Government Code.*

#### **209284. Other Paper Voting Systems**

(a) A paper ballot shall be subject to the standards in the section applicable to the voting system on which it is processed.

(b) When paper ballots, or voting responses on paper other than a ballot, are counted by manual tally the provisions of Title 2, Division 7, Chapter 4.6 of the California Code of Regulations shall apply.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Section 12172.5, Government Code.*

#### **20985. Direct Recording Electronic (DRE) Voting Systems**

~~(a) When direct recording electronic (DRE) technology is used to cast and count the votes on a ballot, the provisions of this section shall apply. The following standards shall be used to determine whether the voter has made a definite choice.~~

~~(b) A voter's choice shall be considered a valid vote if the voter:~~

~~(1) Operates the DRE in a manner to cause an "X" or "√" or "highlight" or similar designation to display in the voting target position of the name of the candidate or measure for which the voter chooses to vote, followed by the voter activating the cast vote indicator.~~

~~(2) Operates the DRE in a manner to cause the name of a qualified write in candidate to be entered in the designated write in space, followed by the voter activating the cast vote indicator.~~

~~(3) Operates the DRE in a manner to cause the name of a candidate listed on the ballot to be entered in the designated write in space, followed by the voter activating the cast vote indicator.~~

~~(4) Operates the DRE in a manner to cause the cast ballot indicator to be activated and has not voted for more contests or candidates than the number for which the voter is eligible to vote.~~

~~(a) If the voter leaves the voting booth without causing the ballot to be cast, the precinct official shall cause the ballot to be cast, without examining how any votes have been recorded on the machine.~~

~~*Note: Authority cited: Section 12172.5, Government Code. Reference cited: 52 U.S.C. 21081(a)(6); Section 12172.5, Government Code.*~~

## **CCR Title 2, Division 7, Chapter 4.6, Manual Tally Standards**

### **20296. Purpose of This Chapter**

The purpose of this Chapter is to provide standards and requirements for conducting a manual tally of votes cast by voters.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: Sections 15270 and 15290; Elections Code, Section 12172.5, Government Code.*

## **20297. Definitions**

As used in this Chapter, the following words have the following meanings:

(a) A “manual tally” is the process of counting the votes cast by voters by hand-to-eye, human interpretation of voter markings from the corresponding ballot, under the provisions of Chapter 4.5.

(b) A “counting board” is the group(s) of individuals appointed by the elections official pursuant to Elections Code sections 339, 15205, 15207, 15290 to participate in the conduct of the manual tally of votes cast.

(c) A “cumulating board” is the group(s) of county election employees appointed by the elections official to participate in the conduct of the manual tally of votes cast to compile the total results from the counting boards for each contest.

(d) A “hash mark” refers to a tally mark, which is a form of numeral used for counting.

(e) “Qualified political party” means a political party qualified pursuant to Elections Code, Division 5 of California Elections Code.

*Note: Authority cited: Section 12172.5, Government Code. Reference cited: Sections 338, 339, 15102, 15205, 15207 and 15270, Elections Code.*

## **20298. General Provisions**

(a) An elections official may conduct a manual tally of the ballots voted in an election by utilizing one or more of the following methods:

(1) A full manual tally, which counts all contests on the ballot, at a county designated central return location(s);

(2) A manual tally recount, which counts a specified number of contests on the ballot, as determined by the elections official; or

(3) A 1 percent manual tally pursuant to Elections Code section 15360.

(b) If an elections official conducts a manual tally pursuant to paragraph (1) of subsection (a), the elections official shall:

(1) Conduct the manual tally at a county designated central return location(s) pursuant to Elections Code sections 15260 and 15261. Ballots shall not be tallied at a voting location, except for manual tallies conducted pursuant to Elections Code sections 15270-15281. The location(s) of the manual tally selected by the elections official, shall be large enough to accommodate the presence of all counting boards, other manual tally staff, and election observers. If multiple manual tally locations are selected and designated by the elections official, every location shall have sufficient space:

(A) To accommodate the presence of all counting boards, supervisors, and other manual tally staff assigned to that location; and

(B) For election observers; and

(C) For chain of custody and continuous security.

(2) Process vote-by-mail ballots received prior to Election Day, such as opening of envelopes and adjudication, beginning at 5:00 p.m. the day before the Election but under no circumstance shall vote-by-mail ballots be counted prior to the close of polls on Election Day pursuant to Elections Code section 15101(b). However, beginning 29 days before the election, the elections official may process vote-by-mail return ballot envelopes, such as signature verification and updating voter history records, pursuant to Elections Code section 15101(a).

(3) Not begin the manual tally until the close of polls on Election Day pursuant to Elections Code sections 15150 and 15152.

(4) Count all ballots pursuant to Division 15 of the Elections Code.

(5) Comply with the provisions of this Chapter.

(c) If an elections official conducts a manual tally pursuant to paragraph (2) of subsection (a), the manual tally shall be conducted pursuant to Chapter 4.78 of these regulations.

(d) If an elections official conducts a manual tally pursuant to paragraph (3) of subsection (a), the manual tally shall be conducted pursuant to Chapter 4.87 of these regulations.

(e) The chain of custody of ballots shall be maintained at all times, including but not limited to, during transport, serializing, scanning, sorting and manual counting.

### **20299. Manual Tally Plan**

(a) Prior to conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298 the elections official shall submit a Manual Tally Plan to the Secretary of State no later than ~~120~~80 calendar days prior to the date of the election.

(b) The Secretary of State shall approve or reject the Manual Tally Plan, no later than ~~90~~70 calendar days prior to the date of the election.

(c) The Secretary of State shall reject a Manual Tally Plan if:

(1) It is missing any of the specified requirements listed below in subsection (f).

(2) The provided requirements lack sufficient detail to fully describe each element listed below in subsection (f).

(3) Any element of the Manual Tally Plan does not comply with state or federal law.

(4) The Manual Tally Plan is insufficient to ensure that the elections official will be able to comply with state or federal law.

(d) If the Manual Tally Plan is rejected the Secretary of State shall provide a written list of any deficiencies in the plan and:

(1) The elections official shall have 10 calendar days from the date of the rejection to amend and resubmit the plan to the Secretary of State.

(2) The Secretary of State shall then have 10 calendar days from the date of resubmission to approve or reject the resubmitted Manual Tally Plan. If the Manual Tally Plan is rejected after resubmittal, the elections official shall tabulate the ballots using a certified voting system and consistent with state and federal law.

(e) If the Manual Tally Plan is approved, the elections official shall:

(1) Post the Manual Tally Plan in a conspicuous place at the office of the elections official, the location(s) where the manual tally takes place, and on the elections official's website, if available, within 5 calendar days of the Secretary of State approval.

(2) Provide status updates to the Secretary of State on the implementation of the Manual Tally Plan at regular intervals:

(A) At a minimum of every 15 calendar days from the date of approval through Election Day.

(B) Weekly from Election Day through the certified statement of the results pursuant to Elections Code section 15375.

(C) If sufficient progress in implementation has not been made and it appears to the Secretary of State that the elections official's compliance with state and federal laws is at risk, the Secretary of State's approval of the Manual Tally Plan may be revoked, and the elections official may be required to:

(i) Use a voting system certified by the Secretary of State for purposes of tabulating and reporting election results; and

(ii) Implement the contingency plan as required in subsection 20299(f)(2) of these regulations.

(3) At least 15 calendar days before Election Day, certify to the Secretary of State that the jurisdiction has successfully obtained the resources identified in its Manual Tally Plan, including but not limited to staff, plans, facilities, security measures, and scanning and tabulating capabilities. If such certification is not provided, the Secretary of State's approval of the Manual Tally Plan shall be revoked, and the jurisdiction shall be required to use a voting system certified by the Secretary of State for purposes of tabulating and reporting election results.

(f) The Manual Tally Plan shall include, but not be limited to:

(1) A detailed description of the outreach and education that will be conducted to voters about how the voters' ballots will be counted and the timing for election results. The description shall include details on how the outreach and education will meet accessibility and language requirements pursuant to state and federal law.

(2) A detailed description of how the manual tally will be conducted in order to meet the deadlines set forth in these regulations and the Elections Code. The elections official shall also include a detailed description of the contingency process in the event that deadlines set forth in these regulations are not met or if the manual tally plan approval is revoked.

(3) The daily work schedule for the manual tally, which shall include the hours of operation, daily estimated number of ballots to be processed, approximate breaks, and lunch times.

(4) A detailed description of how the counting boards, supervisors, cumulating boards, and any other staff assigned to participate in the manual tally will be trained and organized to conduct the tally.

(5) The total number of counting boards, supervisors, cumulating boards, and any other assigned staff that will be required to complete the manual tally accurately, timely, and securely. The total number shall include sufficient back-up staff to account for unknowns or uncertainties, which includes but is not limited to unexpected high voter turnout, failure for counting board members to report for counting, and slowness in counting board performance.

(6) A detailed description of the process to check in, check out, and monitor the members of the counting boards, supervisors, cumulating boards, and any other staff assigned to participate in the manual tally. This plan shall include a description of how the use of cell phones, cameras, and audio or video recording devices in the location where the manual tally is conducted shall be restricted.

(7) A detailed description of the physical location(s). The description shall include:

(A) The security at the location for ballots, forms, counting boards, supervisors, cumulating boards, and other staff assigned to participate in the manual tally; and

(B) ~~A scale diagram depicting~~ The planned setup of the location, including but not limited to the spacing of the tables and designated observation spaces.

(8) A detailed description of the process to prepare the ballots for counting, including but not limited to the sequential serial numbering of ballots and capturing of ballot images.

(9) A detailed description of how the chain of custody will be maintained for the ballots, manual tally forms, and cumulating board forms, including how they will be collected, transported, delivered, distributed, monitored, stored, and secured.

(10) A detailed description of how the manual tally will work in conjunction with the use of the voting system. This description shall include at a minimum how ballot set up, accessible voting devices, and tabulation will work together in accordance with the certified voting system use procedures, including compliance with Elections Code section 15003.

(11) A detailed description of how the manual tally results will be verified and audited using a certified voting system tabulator.

(12) A detailed description of the process to distribute, monitor, collect, and secure the manual tally forms as described in section 20301 of these regulations.

(13) A description of the distribution, monitoring and collection of writing devices to be provided by the elections official for the counting boards to use when conducting a manual tally. No member of a counting board shall use or bring their own writing device to the physical location where the ballots will be counted. The writing device shall be provided by the elections officials and the assigned color shall change daily for security purposes. Additionally, the elections official may limit the presence of personal items, such as food and beverages, backpacks, purses, and bags.

(14) A detailed description of how the elections official will provide reasonable access to the manual tally location to the media and observers, prohibiting or limiting the use of cell phones, cameras or audio or video recording devices in the location where the manual tally is conducted in a manner that will not interfere with the conduct of the manual tally, compromise the anonymity of any ballot, record the signature of any voter, or compromise the security of the location where the manual tally is taking place.

(15) A detailed description of how the elections official will record, document, and resolve issues and discrepancies, which shall at a minimum include the difference in totals between the two tally keepers, the difference in totals between the tally keepers and the cumulating board, and the difference in totals between what was calculated from the manual tally forms and the certified voting system tabulator results during the conduct of the manual tally.

### **20300. Counting Boards**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall establish a sufficient number of counting boards to conduct the manual tally.

(b) For each contest (i.e., office or proposition) to be counted, the counting board shall consist of no less than four individuals and be bipartisan in composition, to include representation from more than one qualified political party and representation from voters with no party preference, if feasible.

(c) The individuals appointed to each counting board shall meet the same general provisions and qualifications of a precinct board member as outlined in Elections Code sections 12300-12303, 15205, 15207, and 15290. The appointment of counting boards shall comply with all applicable:

(1) County ordinances, codes, and policies; and

(2) State and federal laws.

(d) The roles of the counting board members shall be as follows at all times:

(1) At least one counting board member shall serve as the reader and shall read from the ballot.

(2) At least one counting board member shall serve as the observer and shall keep watch of each vote read to check for any possible error or omission on the part of the reader.

(3) At least two of the counting board members shall each keep a manual tally form prescribed by the elections official. Each tally keeper of the counting board shall, with the provided writing device, record a hash mark for each name or measure as the name of each candidate or measure voted upon is read aloud by the reader and verified by the observer from the respective ballot.

(e) Prior to conducting the manual tally, each member of a counting board shall complete and sign a declaration of intent to faithfully discharge the counting board duties. Each counting board member shall do so in the presence of the elections official on a form prescribed by the elections official. The elections official shall countersign the declaration. The declaration shall be in the following form:

State of California

County of

}  
|

### **20301. Manual Tally Forms**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall prescribe and provide the forms for tallying the results of the manual tally. The manual tally form shall contain all the following:

(1) The title of the election and date on which the election was conducted.

(2) Name of jurisdiction conducting the election and manual tally of votes.

(3) The precinct ~~and~~, serialized ballot numbers, and ballot stack number shall be recorded on the manual tally form.

(4) For a presidential primary election, the manual tally form must distinguish between qualified political party ballots and nonpartisan ballots, which each type of ballot must be tallied separately.

(5) The name of each candidate, including any qualified write-in candidates, voted for and the specific office for which each candidate is voted for. The offices shall be listed on the tally form in the same order as they appear on the ballot.

(6) A list of each measure being voted upon in the same order as the ballot type being tallied.

(7) Sufficient space to permit the tallying of no more than 25 ballots per stack, including the full vote cast for each candidate and for and against each measure, per assigned stack of ballots.

(8) Sufficient space to permit the tallying of no more than 25 ballots per stack, including all undervotes and overvotes cast for each candidate and for and against each measure.

(9) A certificate of performance to be filled in upon completion of the each assigned ballot stack, which includes space for the printed and signed names of each counting board member, their designated role, and the date and time signed.

(10) Designated space for the manual tally cumulating board to sign and acknowledge receipt of ballot stacks and manual tally forms, which includes space for the printed and signed names of each cumulating board member, and the date and time signed.

(11) A watermark provided by the elections official that shall change daily for security purposes.

### **20302. Other Responsibilities**

When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, in addition to the appointment of counting board members the elections official shall appoint:

(a) At least one supervisor for every four counting boards, to oversee the overall conduct of the manual tally, including but not limited to tracking the progress of the manual tally, ensuring compliance with the requirements of this Chapter, inclusive, of this regulation and reporting any issues or concerns to the elections official.

(b) At least one supervisor for each location to supervise and ensure compliance with the public observation of the manual tally, including, without limitation, ensuring that the public is able to observe the manual tally and that the public does not distract or interfere with the conduct of the manual tally.

(c) A cumulating board pursuant to section 20304 of these regulations.

### **20303. Conducting a Manual Tally**

(a) Prior to beginning the manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall:

(1) Sequentially serialize each ballot;

(2) Electronically capture the ballot images on a scanner certified pursuant to Elections Code section 19202;

(3) Sort each ballot by precinct;

(4) Further sort the ballots by qualified political party and nonpartisan ballots if the ballots are for a presidential primary election; and

(5) Divide the ballots into separate stacks containing not more than 25 ballots per stack. Each stack must be read and tallied separately. Each stack of ballots shall be:

(A) Secured with a rubber band, binder clip, or equivalent; and

(B) Clearly labeled and numbered consecutively.

(b) The elections official may process all ballots through a tabulator certified pursuant to Elections Code section 19202, prior to beginning the manual tally.

(c) At all times, no fewer than two members of the counting board shall maintain chain of custody of ballots during the manual tally.

(d) At all times while handling the ballots or participating in the manual tally, all individuals shall wear medical style exam gloves provided by the elections official. If at any time the gloves provided become torn, soiled, or otherwise unusable, the elections official shall issue a new pair to the counting board member. Additionally, any time a member of the counting board requires a break, upon return the elections official shall issue a new pair of gloves.

(e) At all times while handling the ballots or participating in the manual tally, the tally keepers shall be the only members of the counting board to utilize the writing device provided by the elections official.

(f) Each counting board shall be positioned at ~~around~~ a designated counting area with sufficient spacing to minimize interference with other counting boards. ~~single table, with at least 10 feet between every edge of the table and any edge of any other table containing a counting board.~~

(g) The ballot shall be tallied one contest at a time within each batch, unless a different method or process is authorized by the elections official.

(h) All undervotes and overvotes for all contests shall be tallied.

(i) A manual tally of the ballots shall be tallied separately by each tally keeper of the counting board for each contest on the ballot. The results of each tally keeper's form for each contest must match exactly. If

the results do not match, the counting shall be conducted again until the results match. If the tallies do not match after the third manual tally count of the contest, the elections official shall have a process in place to review and resolve the discrepancy.

(j) Unless otherwise directed by the elections official, the counting board supervisors shall distribute the writing devices, manual tally forms, and one stack of ballots to each counting board at a time, as directed by the elections official.

(k) The counting board shall verify that the precinct and serialized numbers recorded on the manual tally form are the same as what is contained in the stack provided by the counting board supervisor prior to counting.

(l) The reading of the ballots shall be conducted as follows:

(1) The reader of the counting board shall read from the ballot the choice of the voter.

(2) After reading each ballot, the reader shall place the counted ballot in a separate pile on the table in a manner to distinguish the counted ballots from the uncounted ballots. After each stack of ballots is counted, the ballots shall be resecured.

(3) The observer shall observe the reader and ensure the reader is calling the votes correctly.

(m) The tallying of the ballots shall be conducted as follows:

(1) The tally keepers shall record the votes on the prescribed manual tally form. If the election is a presidential primary election, the tallied votes shall be noted on the manual tally form that is designated for the applicable qualified political party or the nonpartisan manual tally form.

(2) As directed by the elections official, the tally keepers shall manually tabulate on the manual tally form by either:

(A) Placing a short vertical hashmark opposite the name of the candidate or ballot measure voted for the first through fourth vote for the same candidate or ballot measure. For every fifth vote for the same candidate or ballot measure, the tally keepers shall place a horizontal hash mark through the previous four vertical hashmarks; or

(B) Placing a diagonal slash (/) through the numbered tally box under the name of the candidate or ballot measure voted for. For every fifth vote for the same candidate or ballot measure, the tally keepers shall place an (X) through the numbered tally box.

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25
---	---	---	---	---	---	---	---	---	----	----	----	----	----	----	----	----	----	----	----	----	----	----	----	----

(3) Once each counting board has read and tallied one contest, the tally keepers shall verify that the total number of votes for each candidate or ballot measure match, prior to moving onto the next contest.

(4) If a tally keeper makes a mistake while marking the manual tally form, the counting board shall halt counting and notify the supervisor. If the supervisor determines that the manual tally shall be halted and

the manual tally restarted, the supervisor shall provide the counting board's tally keepers with two new manual tally forms and the counting board shall start the manual tally over. The supervisor shall document on the voided manual tally forms the reason for why the forms were voided. All manual tally forms, including voided forms, shall be kept together with the stack of ballots.

(5) If the tally matches for the contest, then the counting board may proceed to counting the next contest.

(6) If the tally does not match for the contest:

(A) The counting board shall notify the counting board supervisor of the discrepancy.

(B) The counting board supervisor shall clearly document the discrepancy on the manual tally forms and provide the counting board with a new set of manual tally forms, ~~and~~ ~~The~~ the counting board shall count the contest a second time. If the tallies do not match after the second manual tally count of the contest, the counting board shall notify the counting board supervisor, who shall clearly document the discrepancy on the manual tally forms, and ~~The~~ the counting board supervisor shall provide the counting board with a new set of manual tally forms and shall join the counting board to ~~and~~ assist with the third manual tally of the contest. If the tallies do not match after the third manual tally count of the contest, the elections official shall have a process in place to review and resolve the discrepancy.

(C) All manual tally forms shall be clearly marked and retained with the corresponding stack of ballots.

(n) Once all contests for all ballots in the stack of ballots have been tallied and all results verified, the counting board shall:

(1) Draw lines through the empty spaces on the manual tally form.

(2) Fill in the certificate of performance section.

(3) Secure all ballots, manual tally forms, and writing devices, and return them as directed by the elections official, ~~to the counting board supervisor.~~

(o) The distribution of ballot stacks and tallying shall continue until all ballots are manually counted.

#### **20304. Manual Tally Cumulating Board**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall appoint a board to cumulate the results of the manual tally forms comprised of county elections employees.

(b) The manual tally cumulating board shall compile the results by:

(1) Hand, without use of any mechanical, electromechanical, or electronic system, or its software; or

(2) The use of a mechanical, electromechanical, or electronic system and its software or any combination of these, that has been conditionally approved or certified by the Secretary of State pursuant to Elections Code sections 362 and 19202; or

(3) A combination of subsection 20304(b)(1) and subsection 20304(b)(2) above.

(c) Once a counting board has completed the manual tally of all contests on their assigned stack of ballots and returned them to the counting board supervisor, the stacks of ballots and manual tally forms shall be provided to the manual tally cumulating board.

(d) Upon receipt of each stack of ballots and manual tally forms, the manual tally cumulating board shall maintain a cumulative total by precinct for each contest being counted pursuant to Elections Code section 15321.

(e) The elections official shall report the results of the manual tally cumulating board in compliance with section 20306 of these regulations.

(f) The manual tally cumulating board shall sign the designated space on each manual tally form once the results have been compiled and recorded. All stacks of ballots and their associated manual tally forms shall then be secured by the elections official.

### **20305. Auditing the Manual Tally**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall use a voting system tabulator certified pursuant to Elections Code section 19202 to conduct an audit of all ballots counted in the manual tally.

(1) The audit shall be performed prior to the certification of the official canvass of the vote.

(2) The elections official shall conduct a test or series of tests pursuant to Elections Code section 15000.

(3) All ballots shall be audited using the certified voting system tabulator.

(4) Any discrepancies between the results of the certified voting system tabulator and the manual tally shall be clearly documented.

(5) A 1 percent manual tally pursuant to Elections Code section 15360 is not required.

(b) In the event that the Manual Tally Plan has been revoked by the Secretary of State or the elections official determines that completing the manual tally is not feasible:

(1) Any ballots that have been manually tallied shall be audited pursuant to subsection 20305(a); and

(2) Any remaining ballots shall be tabulated using a voting system tabulator certified pursuant to Elections Code section 19202 and audited pursuant to Elections Code section 15360.

(3) Any discrepancies between the results of the certified voting system tabulator and the 1 percent manual tally shall be clearly documented.

(c) The official conducting the election shall include a report on the results of the audit in the certification of the official canvass of the vote. This report shall identify any discrepancies between the machine count and the manual tally and a description of how each of these discrepancies was resolved.

### **20306. Reporting Elections Results by Manual Tally**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, the elections official shall submit to the Secretary of State through key data entry:

(1) The semi-official canvass results pursuant to Elections Code section 353.5.

(2) Updates to election result pursuant to Elections Code section 15302(e).

(3) The official canvass results pursuant to Elections Code section 353.5.

(4) The statement of vote and any supplement to the statement of vote pursuant to Elections Code section 15374.

(b) The elections official shall participate in at least two manual data entry tests and verifications scheduled and led by the Secretary of State beginning at least 20 days prior to election day.

(c) Following the closing of the polls, the elections official shall submit to the Secretary of State through key data entry a detailed semifinal official canvass report of their cumulative election result totals for each contest and ballot measure as defined in Elections Code section 353.5 and set forth in Elections Code section 15151. The report shall include all of the following:

(1) The date and time of the report.

(2) The number of precincts reporting and ballots cast.

(3) Cumulative vote totals for every contest and ballot measure, as prescribed in Elections Code section 15151.

(4) For presidential primary elections, vote results for all qualified political party ~~Democratic and Republican~~ presidential candidates shall be reported by each congressional district within the county's

jurisdiction and include the number of precincts reporting and votes cast within each congressional district.

(5) For multiple-county district contests, the elections official shall identify the number of precincts reporting with ballots cast for each multiple-county district contest(s).

(6) For special elections only, the number of registered voters contained in that special election jurisdiction.

(d) The official canvass shall commence no later than the Thursday following the election, and for state or statewide elections shall result in a report of results to the Secretary of State, pursuant to Elections Code section 15301.

(e) During the official canvass period, the elections official shall submit to the Secretary of State, through key data entry, any updated election results on the same day that the elections official publicly releases the updated results.

(f) At the end of the official canvass period, the elections official shall submit to the Secretary of State, through key data entry, the statement of vote of their cumulative election result totals for each contest and ballot measure as defined in Elections Code section 335.5 and set forth in Elections Code section 15374. The report shall include:

(1) All of the above information in subsection (c) of section 20306; and

(2) The total vote-by-mail ballots cast.

(g) At the end of the official canvass period, the elections official shall submit to the Secretary of State through key data entry the supplement to the statement of vote of their cumulative election result totals for each contest and ballot measure as defined in Elections Code section 335.5 and set forth in Elections Code section 15502. The report shall include:

(1) The date and time of the report; and

(2) A breakdown of vote totals for every contest and ballot measure, as prescribed in Elections Code section 15502.

### **20307. Observing the Manual Tally**

(a) When conducting a manual tally pursuant to paragraph (1) of subsection (a) of section 20298, any person may observe the manual tally proceedings, subject to space limitations of the manual tally location selected by the elections official pursuant to section 20299.

(b) The elections official may require any observer of the manual tally proceedings to log in and receive an identification badge before entering the manual tally location. If required by the elections official, identification badges shall be worn at all times.

(c) Observers shall not interfere in any way with the conduct of the manual tally; touch any ballots, tally sheets or other manual tally materials; sit at the official manual tally worktables; place any material on the official manual tally worktables; talk to members of the manual tally boards or supervisors while they are processing ballots or other manual tally materials; or assist in manual tally procedures.

(d) The elections official may deny entry to the manual tally location to any person who fails to comply with the requirements of this section.

(e) The elections official shall clearly describe in the Manual Tally Plan a policy for providing reasonable access to the manual tally location for the media and observers, which includes the use of cameras and audio or video recording devices in the manual tally location in a manner that will not interfere, compromise the anonymity of any ballot, or record the signature of any voter. No interviews shall be permitted in the manual tally location while the manual tally is being conducted.

## **CCR Title 2, Division 7, Chapter 4.7 One Percent Manual Tally**

### **20310. General Provisions.**

(a) Pursuant to Elections Code section 15360, during the official canvass of every election in which a voting system is used, the elections official conducting the election shall conduct a one percent manual tally of the ballots tabulated by those devices, including vote-by-mail ballots.

(b) The elections official shall not randomly choose the initial precincts or select an additional precinct for the manual tally until after the close of the polls on election day.

(c) An elections official conducting a one percent manual tally shall do so in accordance with the provisions of this chapter.

*Note: Authority cited: Section 12172.5, Government Code; Section 15360, Elections Code. Reference: Section 15360, Elections Code.*

### **20311. Definitions.**

As used in this Chapter, the following terms have the following meanings:

(a) “Ballot” shall have the meaning set forth in Elections Code section 301.

(b) “Election management system” shall have the meaning set forth in Elections Code section 2500.

(c) “Elections official” shall have the meaning set forth in Elections Code section 320.

(d) “One-part manual tally” is the process described in Elections Code section 15360, subdivision (a), paragraph (1).

(e) “One percent manual tally” shall have the meaning set forth in Elections Code section 336.5.

(f) “Public notice” means the release of information to the public through two or more of the following readily available communication channels: a website update, a social media post, an email list mailing, a press release, and a notice posted at a building open to the public. This public notice shall comply with Elections Code section 15360(e).

(1) Elections officials are encouraged to maintain an email mailing list of persons who would like to be notified about the one percent manual tally. If an elections official maintains such a list, public notice for the purposes of this Chapter must include sending an email to all persons on this list.

(g) “Two-part manual tally” is the process described in Elections Code section 15360(a)(2).

(h) “Voting system” shall have the meaning set forth in Elections Code section 362.

*Note: Authority cited: Section 12172.5, Government Code; Section 15360, Elections Code. Reference: Sections 301, 320, 336.5, 362, 2500, and 15360 Elections Code.*

### **20312. Public Notice and Observation.**

(a) The elections official shall ensure that the one percent manual tally is observable by the public. The elections official shall provide:

(1) At least five days public notice prior to selection of ballots to tally pursuant to Elections Code section 15360(e). This notice shall include descriptions of how the one percent manual tally will be conducted, the methods for ensuring ballot security, information regarding the process for selecting ballots, the time and place of the selection of ballots to tally and the date the ballots will be tallied.

(2) Observers with an oral or written explanation of the one percent manual tally, a written code of conduct for observation, and any documentation they will need for informed and effective observation.

(3) The public the opportunity to observe ballots being retrieved and tallied.

(4) The public the opportunity to observe the voters’ marks on every tallied ballot.

(b) Observers may ask questions of a person designated by the elections official, provided the observers do not interfere with the conduct of the one percent manual tally.

*Note: Authority cited: Section 12172.5, Government Code; and Section 15360, Elections Code. Reference: Section 15360, Elections Code.*

### **20313. Selection of Ballots ~~to~~ for Manual Tally.**

(a) The elections official shall select precincts and batches of vote-by-mail ballots for the one percent manual tally independent of both the voting system and the election management system.

(b) The elections official shall use one of the following methods to randomly select precincts and batches of vote-by-mail ballots for the one percent manual tally:

(1) The elections official creates one identical, labeled object such as a slip of paper or ball for each item (precinct or batch of vote-by-mail ballots) to tally; places all of these items into a container; shuffles those

items within the container; and then draws items one after the other until all required tally items are selected. Example: There are 123 possible precincts to select from. The elections official labels 123 table tennis balls with an identifier for each precinct and then places these balls into a large hopper. The elections official shakes the hopper for one minute to ensure the balls have been sufficiently shuffled. The elections official then reaches in and randomly grabs one ball to identify a precinct. The elections official then draws another ball, and so on.

(2) The elections official creates a list of precincts and batches of vote-by-mail ballots; sequentially numbers that list; and then identifies which item (precinct or batch of vote-by-mail ballots) to tally, by:

(A) Using a random number generator configured to return only numbers represented on that sequential list. Use the random number generator to identify all required tally items. Example: There are 123 possible precincts to select from. The elections official uses the “randbetween()” function in Microsoft Excel to identify a random number between 1 and 123. The elections official relates this number to the precinct in the list. The elections official refreshes this function to identify another random number, and so on.

(B) Rolling one or more fair 10-sided dice to identify each digit of the sequential number, starting with the highest value (left-most) digit. For any die roll that returns a number higher than one available for that digit, the elections official shall re-roll the die for that digit before proceeding to the next digit. Repeat this process for any additional tally item. Example: There are 123 possible precincts to select from. The elections official first rolls a die for the hundreds place digit, rolling until they get the number 0 or 1. They proceed to roll for the tens place digit and then the ones place digit. When that process is complete, they begin new die rolls to identify a second precinct to tally, and so on.

(C) Identifying each digit of a sequential number by randomly drawing one numbered object such as a slip of paper for each decimal, starting with the highest value (left-most) digit. Repeat this process for any additional tally item. Example: There are 123 possible precincts to select from. The elections official first identifies the hundreds place digit by drawing from two slips of paper labeled 0 and 1. They proceed to pull sips of paper for the tens place digit and then the ones place digit. When that process is complete, they start the process over to identify a second precinct to tally, and so on.

(D) Placing this list into computerized spreadsheet software; assigning a random number next to each item using a function in that spreadsheet tool; sorting those randomly assigned numbers in either ascending or descending order; and then selecting items starting at the top until the requisite number of items is identified. Example: A list of 123 precincts is added to Microsoft Excel by placing each precinct on in its own cell in sequential rows. The elections official uses Excel’s randbetween() function to assign a random number greater than or equal to 0 and less than 1 next to each cell. The elections official converts these random numbers to static text so that they will not change when the list is sorted. The elections official sorts these now-static random numbers, along with the precincts in the neighboring cells, in descending order. The elections official selects the top two items in this sorted list.

(c) If the elections official, at their discretion, selects additional precincts, batches, or contest(s) beyond the one percent manual tally, they shall do so after randomly identifying ballots to tally. The elections official may not use this discretionary selection to identify one percent of precincts or batches of vote-by-mail ballots in lieu of any portion of the random selection.

*Note: Authority cited: Section 12172.5, Government Code; Section 15360, Elections Code. Reference: Section 15360, Elections Code.*

**20314. Chain of Custody.**

(a) The elections official shall maintain and document at all times the chain of custody for each ballot included in the one percent manual tally. Ballots shall be kept securely, and the chain of custody maintained at all times during the one percent manual tally.

(b) Chain of custody logs shall be available for public inspection after the canvass of the election pursuant to Division 15, Chapters 2 through 4, of the Elections Code is complete.

(c) The elections official shall secure and maintain in sealed ballot containers all tabulated ballots.

(d) The elections official shall establish written procedures to ensure the security, confidentiality, and integrity of any ballot cards, cast vote records, or any other data collected, stored, or otherwise used pursuant to this section.

*Note: Authority cited: Section 12172.5, Government Code; and Section 15360, Elections Code. Reference: Section 15360, Elections Code.*

**20315. Reporting of Results.**

(a) The elections official conducting a one percent manual tally shall immediately upon conclusion and prior to certifying the results pursuant to Elections Code section 15372, publish a report of results for the one percent manual tally on their website.

(~~a~~ b) The elections official shall report the results in the certification of the official canvass of the vote pursuant to Elections Code section 15372. For elections involving statewide contests, this would be the Secretary of State. For elections involving local contests, this would be the governing board such as the County Board of Supervisors.

(~~b-c~~) The report required by subsection 20315(a) and 20315(b) above shall contain the following:

(1) The manual tally method used: one-part manual tally or two-part manual tally.

(2) The date and time the public notice required by Section 20312 was provided, and a copy of the notice.

(3) A link to the internet website where additional information about the one percent manual tally is posted, if applicable.

(4) The date and time the one percent manual tally commenced, beginning with the random selection required by Section 20313.

(5) The date and time the one percent manual tally finished.

(6) The estimated number of members of the public who observed the process.

(7) The total number of ballots counted in the election, which shall be the official canvass numbers.

(A) While the one percent manual tally may commence in advance of the confirmation of the official canvass numbers, these numbers will be available at the time of certification which shall coincide with the certification of the official canvass.

(B) The total number of ballots shall be segregated by type: polling place or vote center, including provisional ballots; and vote-by-mail.

(8) The total number of ballots manual tallied.

(A) The total number of ballots shall be segregated by type: polling place or vote center, including provisional ballots; and vote-by-mail.

(9) The total number of precincts and batches of vote-by-mail ballots in the election, and a list describing each and the number of ballots in each, indicating whether ballots are polling place, vote center, vote-by-mail, or provisional.

(10) The total number of precincts and batches of vote-by-mail ballots selected for the manual tally.

(11) The method used to choose precincts and batches of vote-by-mail ballots to include in the tally.

(A) For the random selection method, indicate which of the methods from Section 20313 was used.

(B) For any discretionary, additional precincts and batches of vote-by-mail ballots, describe the reason those were selected.

(12) A description of any discrepancies noted, including details about each discrepancy and how it was resolved.

(13) Notes on anything unusual or problematic, or that would be useful to improve the process, or that might be of value to the Secretary of State or other elections officials.

(14) A certification from the elections official that the one percent manual tally was conducted in accordance with Elections Code section 15360(f), and this Chapter.

(15) The name and signature of the elections official submitting the report and the date submitted.

(e d) The Secretary of State shall publish any report under this section received from an elections official on its website no later than ten business days after the date it publishes the certification of the official canvass of the vote in accordance with Elections Code section 15372. This subdivision shall not prohibit the elections official from publishing the same report on its website.

#### **2081354. Order of Recount.**

(a) If no order in which precincts are to be counted is specified in the request for recount, the elections official shall determine the counting order of precincts or batches.

(b) The requestor may request, in writing, a change to the order of precinct or batch counting determined by the elections official or specified in the requestor's initial request for a recount. Any change in the counting order of precincts or batches is subject to the approval of the elections official.

(c) Any additional estimated costs associated with requests to change the order of precinct or batch counting shall be paid by the requestor prior to re-ordering the precincts or batches.

(d) Any additional relevant material or precincts shall not be inspected upon conclusion of the recount.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Section 15622, Elections Code.*

#### **2081355. Cost of Recount.**

(a) The elections official shall estimate the costs necessary to produce relevant material and the requestor shall pay an advance deposit of the estimated amount at least one day prior to the materials being produced.

(b) The requestor or designee shall pay the advance deposit using cash, cashier's check or money order at the time established by the elections official in accordance with Elections Code section 15624 and the minimum number of hours specified by Elections Code section 15626. At the elections official's discretion, electronic payment by credit or debit card may be accepted.

(1) If a designee is appointed by the requestor to submit a payment or deposit, the requestor shall make the designee in writing, and a copy of the written designation shall be submitted to the elections officials.

(c) At least one day prior to the commencement of the recount, the elections official shall determine the estimated cost for the first day of the recount and shall advise the requestor in writing of the advance deposit required. The requestor shall, before the recount is commenced, deposit this amount with the elections official. The same procedure shall be followed for each subsequent day of the recount. Daily estimates may vary based upon experience or additional requests made during the course of the recount.

~~(d) The requestor shall pay the advance deposit using cash, cashier's check or money order. At the elections official's discretion, electronic payment by credit or debit card may be accepted.~~

~~(e)~~ d) All actual costs of the recount that would not have been incurred but for the requestor's particular recount request shall be directly recoverable from the requestor and may include, but are not limited to, additional supervision hours, security guard hours, the elections official's staff hours, space rental, transportation of ballots and materials and administrative costs.

~~(f)~~ e) The elections official shall issue a receipt for payment of the deposits and shall maintain a daily log of estimated costs, deposits, actual expenses and amount of refund due, if any.

~~(g)~~ f) If the advance deposit is not paid by a particular requestor, the elections official will terminate the recount of precincts specified by that requestor.

~~(h)~~ g) When the recount is completed or discontinued, any amount collected from a voter requesting the recount, which exceeds the actual costs, shall be refunded to that requestor.

~~(i)~~ h) If upon completion or discontinuation of the recount actual costs exceed the prepaid estimated costs, the elections official shall charge and the requestor shall pay the additional amount.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Sections 15624 and 15625, Elections Code.*

### **2081356. Location of Recount.**

(a) The recount shall take place in a location to be determined by the elections official. The elections official shall choose a location that is large enough to accommodate the presence of the following:

(1) Not more than two representatives of each interested party and each qualified political party to check and review the preparation, testing and operation of the tabulating devices, and to attend any or all phases of the recount; and

(2) Not more than two representatives of any bona fide association of citizens or a media organization to check and review the preparation, testing and operation of the tabulating devices, and have the representatives in attendance at any or all phases of the recount.

(3) In the event the elections official determines that more than two recount boards are necessary, each interested party may designate one additional representative for every additional recount board appointed, solely for the purpose of viewing the recount of ballots and challenging ballots.

(b) The elections official may limit the total number of representatives employed pursuant to subdivision (a)(2) in attendance to no more than 10 by a manner in which each interested bona fide association of citizens or media organization has an equal opportunity to participate. Any representatives employed and in attendance pursuant to subdivision (a)(1) or (a)(3) shall not be subject to the limit specified in this subdivision.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Sections 5100, 15004, 15625, 15628 and 15629, Elections Code.*

#### **2081357. Security.**

(a) The elections official shall ~~develop, and prior to each statewide election, within six (6) months of the effective date of these regulations, submit to the Secretary of State~~ maintain written security measures for recounts to ensure the integrity of the recount proceedings. The security measures shall include, but not be limited to, physical security of the recount proceedings, recount equipment and storage of recount materials; chain of custody controls ~~and signature verified documentation for all voter verified paper audit trail paper copies, for all~~ voted, spoiled and unused ballots, and all “relevant material” as described in section 2081351(~~f~~h). ~~If submission by the vendor of a security plan to the Secretary of State is a condition of approval of voting system use, written notice to the Secretary of State of designation of that security plan to govern recounts satisfies the requirement of this subdivision.~~

(b) Upon request, all persons authorized to observe the recount pursuant to section 20816 20356 must be permitted to observe and inspect, without physical contact, the integrity of all externally visible security seals used to secure all ballot materials, ~~voter verified paper audit trail paper copies,~~ printed ballot images, relevant material as described in section 2081351(~~f~~h), and recount documentation in a reasonable time and manner as established by the elections official that does not interfere with the conduct of the recount.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Sections 15624 and 15625, Elections Code.*

#### **2081358. Staffing.**

(a) Prior to the commencement of the recount, the elections official shall determine the number of special recount boards necessary to complete the recount in a timely manner. Special recount boards shall consist of four members each, as appointed by the elections official. ~~The elections official shall appoint four voters of the county to each special recount board. A voter who is also an employee of the elections' official's jurisdiction shall not be compensated as a special recount board member pursuant to Elections Code section 18625 for any day for which the jurisdiction otherwise compensates the employee unless the employee uses one of his or her vacation days.~~

(b) There shall be one supervisor for every four special recount boards. The supervisor's function is to enforce the rules and transport ballots and reports. The supervisor shall not resolve challenges.

~~(c) At the end of each day, the elections official or his or her designee shall post and announce publicly the following:~~

~~(1) The results of the recount tally of each precinct recounted that day;~~

~~(2) The certified election results tally for each precinct recounted that day;~~

~~(3) A running tally of the total recount results for all precincts recounted to date; and~~

~~(4) A running tally of the total certified election results for all precincts recounted to date.~~

~~(d-c)~~ The elections official shall determine whether additional personnel is necessary for tasks such as producing relevant material, sorting or retrieving materials, or checking signatures.

### **2081359. Scheduling.**

The elections official shall set the daily schedule for the recount, including hours of operation, approximate break and lunch times, in accordance with the requirements of Elections Code section 15626. The schedule shall be posted in a conspicuous place at the office of the elections official and at the location where the recount takes place, if different. Recount activities will continue daily so long as the deposit has been submitted timely. If the deposit is not timely submitted, the recount shall be terminated and the elections official shall post notice in a conspicuous place at the office of the elections official that the recount has been terminated.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.*

*Reference: Sections 15625 and 15626, Elections Code.*

### **2082360. Spokespersons and Observers.**

(a) Any person may observe the recount proceedings, subject to space limitations of the recount location selected by the elections official pursuant to section ~~20816~~ 20356.

(b) Upon request by the elections official, each interested party shall appoint one of his or her representatives to serve as a spokesperson authorized to make decisions with respect to the recount on behalf of the interested party, or the interested party may serve as his or her own spokesperson. When accompanied by an elections official or his or her designee, the spokesperson shall have access to all areas where ballots are recounted by hand or tabulated by machine.

(c) Questions other than ballot challenges shall be routed through the spokesperson, who shall then direct the question to the elections official or his or her designee. Official discussions with any interested party concerning resolution of questions shall include each interested party or his or her spokesperson.

(d) The elections official may require any requestor, interested party, representative, or observer of the recount proceedings to log in and receive an identification badge before entering the recount location. If required, identification badges shall be worn at all times and returned to the elections official at the end of the day.

(e) Requestors, interested parties, representatives, and observers shall not interfere in any way with the conduct of the recount, touch any voting system components, ballots, tally sheets or other special recount board materials, sit at the official recount worktables, place any material on the official recount worktables, talk to members of the special recount boards or supervisors while they are processing ballots or other recount materials or assist in recount procedures.

(f) The elections official may deny entry to the recount location to any person who fails to comply with the requirements of this section.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Sections 15625, 15629 and 15630, Elections Code.*

**2082361. Media, Photography and Recording Devices.**

(a) The elections official shall ~~develop, and prior to each statewide election within six (6) months of the effective date of these regulations,~~ maintain a written policy providing reasonable access to the recount location by the media, and the use of cameras or audio or video recording devices in the recount location in a manner that will not interfere with the recount, compromise the anonymity of any ballot or record the signature of any voter. The elections official shall make the written policy publicly available on their website. Interested parties and observers shall be permitted the same access for use of cameras or audio or video recording devices as members of the media.

(b) No interviews shall be permitted in the recount location while the recount is being conducted.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.  
Reference: Sections 15625 and 15629, Elections Code.*

**2082362. Results of Recount.**

(a) At the end of each day, the elections official or his or her designee shall post and announce publicly the following:

(1) The results of the recount tally of each precinct or batch recounted that day;

(2) The certified election results tally for each precinct or batch recounted that day;

(3) A running tally of the total recount results for all precincts or batches recounted to date; and

(4) A running tally of the total certified election results for all precincts or batches recounted to date.

~~(a)~~ (b) Upon completion of the recount, the elections official shall post the results of the recount in a highly visible public location in the elections official's office and on the elections official's website.

~~(b)~~ (c) In a recount of an election for a statewide office or measure, Assembly, State Senate, Presidential convention delegate or slate of electors, Congress, State Board of Equalization, Supreme Court or Courts of Appeal, transmit one complete copy of all results of the recount to the Secretary of State. The Secretary of State shall compile the results of the recount and notify the affected counties within five (5) business days of receipt of all of the results of the recount as to whether the recount has changed the outcome of the election, as provided in Elections Code section 15632.

(1) If the outcome of an election has changed as a result of a recount, as provided in Elections Code section 15632, the elections official shall:

(2) In a recount of an election for a statewide office or measure, Assembly, State Senate, presidential convention delegate or elector, Congress, State Board of Equalization, Supreme Court or Courts of Appeal, recertify the official returns for the recounted election with the new official count for each precinct involved in the recount and send a copy of the recertification to the Secretary of State.

(3) In a recount of an election for any office or measure not included in subdivision (c)(1), recertify the official returns for the election with the new official count for each precinct involved in the recount and send a copy of the recertification to the public official or governing ~~board~~ ~~body~~ that declares the results of the election subject to the recount, in order that they may adopt the recertification and re-declare the results of the election.

(4) Refund all monies deposited for the recount by any requestor in whose favor the recount changed the outcome of the election. If a recount conducted in multiple counties changed the overall outcome of the election, all monies deposited in all affected counties by such a requestor shall be refunded. No refund shall be made if the recount did not change the overall outcome of the election.

(d) Any additional relevant material or precincts shall not be inspected upon conclusion of the recount.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.

### **2082363. Challenges.**

(a) A challenged ballot shall be set aside with a notation indicating the precinct number, the method by which it was originally counted for the official canvass, e.g., ~~direct recording electronic~~-voting system, scanner or hand count, the challenge number assigned to the ballot, the reason for the challenge, and the identity of the person making the challenge.

(1) A ballot that was counted in the official canvass, including a counted ~~vote-by-mail~~ or provisional ballot, may be challenged only on grounds of ~~disqualifying distinguishing marks or some other grounds~~ visible on the face of the ballot so that the ballot can be isolated and removed from the count if the elections official determines that the ballot was not properly cast.

(2) A voted ballot that was not counted in the official canvass, including a rejected unopened ~~vote-by-mail~~ or provisional ballot, may be challenged and added to the count if the elections official determines that the ballot was properly cast.

(b) Resolution of challenged ballots shall take place in a segregated area within the recount location, separate from that being used to perform the recount, as determined by the elections official, to avoid confusion and mixing of ballots.

(c) Challenges shall be resolved each day after all special recount boards complete their work, or more often if necessary, as determined by the elections official, but in any event before the conclusion of all recount proceedings. The determination of the elections official on a challenge shall be final. The elections official shall maintain a record of each challenge and the determination on each challenge.

**Article 2. Recount of Votes Cast On Ballot Cards or Paper Ballots and Originally Tabulated Automatically.**

**208370. Recounts Using the Type of Vote Tabulating Devices Used In the Election.**

(a) Prior to conducting a recount of ballot cards or paper ballots using the type of vote tabulating devices used in the election, a logic and accuracy test limited to the contest subject to recount shall be conducted on each of the vote tabulating devices to be used in the recount, using a test deck created to test logic and accuracy for the contest to be recounted. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 2084356. The results of the test, as well as the test deck used, shall be made available for inspection by any requestor, spokesperson, member of the media or observer present at the recount location between the time the test is completed and the posted time for recounting of ballots to begin.

(b) A recount using the type of vote tabulating devices used in the election shall, to the maximum extent possible, be conducted using the same methods used to tabulate the ballots originally, and shall include the following:

(1) On equipment capable of producing a paper tape or print-out, a zero-results tape or report shall be printed from each vote tabulating device, if feasible without new election coding and if supported by the device in the configuration used in the election, and verified by the requestor and spokespersons prior to any processing of ballots with that device.

(2) If necessary to preserve the original vote count record, a backup of the election results shall be made and the same type of memory media that was used in the election shall be prepared to capture the recount vote results.

(3) Each voted ballot shall be processed with the same type of vote tabulating devices used in the election.

(4) Ballots that cannot be read by the vote tabulating devices shall be corrected or duplicated in accordance with Elections Code sections 15208, 15210 and 15211.

(c) Once all eligible ballots cast in a precinct have been processed by a tabulating device, the device shall, if supported by the voting system, be rendered incapable of accepting further ballots for that precinct and the vote results shall be printed from that device and made available for public inspection. If supported by the voting system, the following steps shall also be taken:

(1) Recount vote results of ballots cast in each precinct subject to recount shall be uploaded to the voting system's central tabulation and reporting application; and

(2) The elections official shall report separately the recount vote results for each precinct subject to recount. Such reporting will include the number of ballots undervoted and overvoted in the recounted contest.

(d) At the conclusion of tabulation of all precincts designated for the recount, a logic and accuracy test limited to the contest subject to recount shall be conducted on each tabulating device used in the recount,

using the same test deck created prior to the recount to test logic and accuracy for the contest. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20356816. The elections official shall make the results of the logic and accuracy test, as well as the test deck used for the test, available for inspection by the requestor, spokespersons, members of the media and observers at the recount location before the conclusion of the recount.

### **208371. Manual Recounts Generally.**

(a) One of the four special recount board members shall read the ballot and call out the vote cast for the contest subject to recount on that ballot; one shall observe that the correct call was made, and two members shall each separately and independently record the votes as called out.

(b) Prior to beginning the actual manual recount, the elections official shall instruct all members of the special recount boards, requestor, interested parties, representatives and observers on the procedures to be followed for the recount and shall provide them with copies of these recount regulations, any local documentation concerning recount procedure, and documentation on how to interpret and read the votes cast on the ballot, consistent with federal and state law and Chapter 4.5 of these regulations ~~the State Uniform Vote Count Standards~~. The instructions and documentation shall include a statement that in the event of a challenge, the determination of the elections official shall be final.

(c) Vote-by-mail and early-voted ballots cast from a precinct subject to recount shall be tabulated separately from ballots cast in a polling place on Election Day.

### **208372. Manual Recounts, “Vote for One” Contests.**

Manual recount tabulation on a voting system in a “Vote for One” contest is subject to the following requirements:

(a) Prior to counting the ballots, and in the clear view of the requestor, spokespersons and observers, all ballots for the precinct shall be separated into stacks that do and do not contain the contest. Those that contain the contest shall be sorted as follows:

- (1) Ballots that were not voted for the contest (under-voted);
- (2) Ballots that were over-voted for the contest; and
- (3) Ballots that were voted for the contest, sorted by candidate or position.

(b) Starting with the voted ballots, one member of the special recount board shall state the candidate or position for which the vote was cast making sure the requestor, interested parties and their representatives can observe the contest subject to recount.

(c) After the vote is stated and counted, the counted ballot shall be placed on the table, with the counted ballots placed in stacks of either 10 or 25, at the discretion of the elections official.

(d) Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. Each of these two board members shall announce when he or she has counted 10 (or 25) votes. If both members call out the same number of counted votes at the same time, the tally shall continue forward for the next 10 (or 25) ballots. If both recorders do not reach 10 (or 25) additional votes on the same ballot, then the count for the last interval of 10 (or 25) ballots shall be stricken from their tally sheets and those ballots recounted.

(e) A requestor or an authorized spokesperson may request to inspect any ballot. Tallying shall be halted while the ballot is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the ballots. Tallying will resume once the requestor or spokesperson has completed the inspection, which the requestor or spokesperson shall complete in a reasonable amount of time.

(f) Tallying shall continue in this manner, until all stacks of voted ballots have been tallied.

(g) After all voted ballots have been counted and tallied, the two special recount board members who have been recording the votes shall each independently calculate the total votes for each candidate or position on their tally sheets. When both have completed totaling, they shall each announce their totals one candidate or vote position at a time. If both announce the identical vote total for each candidate or position in the recounted contest, the recount of that precinct shall be deemed complete and the results reported to the elections official. If the special recount board members announce different vote totals for any candidate or vote position in the recounted contest, the recount tallies recorded will be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written report shall be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that precinct shall be discarded and the recount of that precinct shall start over.

*Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.*

### **208373. Manual Recounts, “Vote for Multiple” Contests.**

Manual recount tabulation on a voting system in a “Vote for Multiple” contest is subject to the following requirements:

(a) Prior to counting the ballots for the contest subject to recount, and in the clear view of the requestor, spokespersons and observers, all ballots for the precinct shall be separated into stacks that do and do not contain the contest. Those that contain the contest shall be sorted as follows:

(1) Ballots that were not voted for the contest (under-voted);

(2) Ballots that were over-voted for the contest;

(3) Ballots indicating a vote for the first candidate listed on the ballot for the contest; and

(4) Ballots that do not indicate a vote for the first candidate listed on the ballot for the contest.

(b) Starting with the voted ballots, one member of the special recount board shall state the candidate or position for which the vote was cast making sure the requestor, interested parties and their representatives can observe the contest subject to recount.

(c) After the vote is stated and counted, the counted ballot shall be placed on the table, with the counted ballots placed in stacks of 10 (or 25).

(d) Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. Each of these two board members shall announce when he or she has counted 10 (or 25) votes. If both members call out 10 (or 25) counted votes at the same time, the tally shall continue forward for the next 10 (or 25) ballots. If both recorders do not reach 10 (or 25) additional votes on the same ballot, then the count for the last interval of 10 (or 25) ballots shall be stricken from their tally sheets and those ballots recounted.

(e) A requestor or an authorized spokesperson may request to inspect any ballot. Tallying shall be halted while the ballot is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the ballots. Tallying will resume once the inspection is completed, which the requestor or spokesperson shall complete in a reasonable amount of time.

(f) Once all the votes for the first candidate have been recorded, the valid voted ballots shall be resorted into two stacks:

(1) Ballots that were voted for the second candidate in the contest; and

(2) Ballots that do not indicate a vote for the second candidate in the contest.

The ballots voted for the second candidate shall be calculated in accordance with (b) through (e) above. Tallying shall continue in this manner, until the votes for each candidate in the contest have been recounted and tallied.

(g) After all voted ballots have been counted and tallied, the two special recount board members who have been recording the votes will each independently calculate the total votes for each candidate or position on their tally sheets. When both have completed totaling, they will each announce their totals one candidate or vote position at a time. If both announce the identical vote total for each candidate or position in the recounted contest, the recount of that precinct shall be deemed complete and the results reported to the elections official. If the special recount board members announce different vote totals for any candidate or vote position in the recounted contest, the recount tallies recorded and announced will be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written explanation shall

be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that precinct shall be discarded and the recount of that precinct will start over.

### ~~Article 3. Recount Of Votes Cast On Direct Recording Electronic Voting Systems.~~

#### ~~20840.— Recounts on Direct Recording Electronic Voting Systems Using Electronic Vote Results.~~

~~(a) Prior to conducting the actual recount of ballots, a logic and accuracy test limited to the contest subject to recount shall be conducted on each direct recording electronic voting system being used in the recount, using a test pattern created to test the logic and accuracy for the contest. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The elections official shall make the results of the logic and accuracy test, as well as the test pattern used for the test, available for inspection by the requestor, spokespersons and observers at the recount location before the conclusion of the recount.~~

~~(b) If supported by the voting system, electronic recount tabulation on a direct recording electronic voting system shall be based on a re-import and re-tabulation of the vote results from the electronic media originally used to capture and transfer the vote results from the direct recording electronic voting system devices into the election management system for that voting system. If re-import from electronic media is not supported by the voting system, the DRE vote results shall be manually added to the final results. The elections official shall generate a report for each recounted precinct detailing the aggregated direct recording electronic voting system vote results for the recounted contest.~~

~~Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.~~

~~Reference: Sections 19220, 19381, 19382 and 19383, Elections Code.~~

#### ~~20841.— Automated Recounts on Direct Recording Electronic Voting Systems Using Voter Verified Paper Audit Trail Paper Copies.~~

~~(a) The voter requesting the recount of votes cast on a direct recording electronic voting system may request that it be conducted based on an automated scan and tabulation of the voted ballots directly from the voter verified paper audit trail paper copies. An automated scan shall not be used unless the Secretary of State has tested and approved the automated scan method as part of the certification of the voting system.~~

~~(b) Prior to conducting the recount of voter verified paper audit trail paper copies from the direct recording electronic voting system, a logic and accuracy test limited to the contest subject to recount shall be conducted, using a test pattern and a test verified paper audit trail paper roll, on each automated scan and tabulation device to be used in the recount. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The elections official shall make the results of the logic and accuracy test, as well as the test pattern and test paper roll used for the test, available for inspection by the requestor, spokespersons and observers at the recount location before the conclusion of the recount.~~

~~(c) Once all vote results have been scanned and captured from each scanning and tabulating device used for the recount, the elections official shall generate a report for each precinct detailing the aggregated direct recording electronic voting system vote results for the recounted contest.~~

~~Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.~~

~~Reference: Sections 19201, 19220, 19250, 19251 and 19253, Elections Code.~~

~~20842. Manual Recounts of Ballots Cast on Direct Recording Electronic Voting Systems Using Voter Verified Paper Audit Trail Paper Copies.~~

~~The manual recount, using voter verified paper audit trail paper copies, shall include the following:~~

~~(a) If the direct recording electronic voting system used in the election subject to recount created continuous roll voter verified paper audit trail paper copies, the roll shall be re-spooled if necessary to permit the recount to begin at the start of the roll. The roll may not be cut to separate the voter verified paper audit trail paper copies of individual voters.~~

~~(b) One member of the special recount board shall be designated to review the voter verified paper audit trail paper copy and call out the vote results for the recounted contest from that paper copy. If it was printed and retained, this member shall begin by reviewing and verifying the zero results tape printed prior to the opening of the polls and before any votes were captured. The zero results tape, if it was printed and retained, shall also be reviewed and verified by the supervisor of the special recount board and by the requestor and spokespersons.~~

~~(c) The board member designated to review and call out the vote results shall then proceed to review the voter verified paper audit trail paper copies in succession, calling out each ballot in turn and stating how the ballot was voted in the challenged contest until either 10 or 25 (at the discretion of the elections official) have been called out. If there is no legible voter verified paper audit trail paper copy for a ballot due to a malfunction of the voter verified paper audit trail printer, the elections official shall print the ballot image for that ballot from the memory device used by the direct recording electronic voting system to record the ballot. The board member designated to review and call out the votes results shall review the printed ballot image and shall state how the ballot was voted in the challenged contest.~~

~~(d) Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. The board member designated to call out the votes shall announce when either 10 or 25 votes (at the discretion of the elections official) have been called out, and the recorders shall confirm that their vote counts match exactly. If the vote counts match exactly, the board member reviewing and calling out the vote results shall draw a distinct line on the continuous voter verified paper audit trail roll between the individual voter verified paper audit trail paper copy containing the 10th or 25th counted vote and the individual voter verified paper audit trail paper copy for the next voted ballot, and the tally shall continue forward for the next 10 or 25 counted votes. If the vote counts do not match exactly, then the count for the last interval of voter verified paper audit trail paper copies shall be stricken from their tally sheets and those voter verified paper audit trail paper copies recounted.~~

~~(e) The individual voter verified paper audit trail paper copies or printed ballot images shall be displayed to permit the requestor, spokespersons and observers to view the contest subject to recount, either directly or indirectly, as the voter verified paper audit trail paper copy or printed ballot image is reviewed and called. Voter verified paper audit trail paper copies for ballots that were canceled or canceled and re-voted, shall be noted but not counted toward the vote results.~~

~~(f) A requestor or an authorized spokesperson may request to inspect any voter verified paper audit trail paper copy or printed ballot image. Tallying shall be halted while the voter verified paper audit trail paper copy or printed ballot image is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the voter verified paper audit trail paper copies or printed ballot images. Tallying shall resume once the inspection is completed, which the requestor or spokesperson shall complete in a reasonable amount of time.~~

~~(g) Tallying shall continue in this manner, breaks and meal times excepted, until the entire continuous voter verified paper audit trail record has been reviewed and tallied.~~

~~(h) After all ballots of a direct recording electronic voting system have been reviewed and tallied from its voter verified paper audit trail paper copies and, where necessary, printed ballot images, the special recount board members who have been recording the votes shall independently calculate the total votes for each candidate or vote position on their tally sheets. When both have completed totaling, each shall announce his or her totals for that candidate or vote position. If both announce the identical vote total for each candidate or vote position in the recounted contest, the recount of that direct recording electronic voting system shall be deemed complete and the recount shall proceed with the continuous voter verified paper audit trail roll for the next direct recording electronic voting system with voted ballots for the challenged contest.~~

~~(i) If the special recount board members announce different vote totals for the candidate or position, the recount tallies recorded and announced for that candidate or position shall be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written explanation shall be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that direct recording electronic voting system shall be discarded and the recount of that candidate or position shall start over.~~

~~(j) Once all the voter verified paper audit trail paper copies and, where necessary, printed ballot images containing votes for a precinct have been reviewed and tallied, the recount of that precinct shall be deemed complete and the results reported to the elections official.~~

~~Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.~~
