RE: Statewide Special Election: Statewide Database Requirement

Elections Code section 21000 requires that for every election, county election officials provide “any information and statistics that may be necessary for use in reapportionment.” The Legislature has designated the Statewide Database as the entity to receive and manage this information.

Attached is a checklist of the data the Statewide Database needs to receive from all counties by **September 4, 2025**, and a list of data it needs to receive by **December 5, 2025**, along with instructions for how to send the data.

If you have any additional questions, please contact the Statewide Database directly at the number/email address below:
