RE: Primary Election: Survey of County Signature Cure Webpages (Action Required)

Signature Verification Statement Webpage Publishing

Elections Code section 3019(f) was recently amended (Senate Bill 3, Ch. 307, Stats. of 2025) to require the Secretary of State (SOS) to publish on its internet website a single, combined vote-by-mail ballot signature verification statement and unsigned ballot identification envelope statement.

Section 3019(f) further requires elections officials to post on their internet website the SOS's combined statement or a combined statement developed by the elections official that meets the requirements of Section 3019. Along with the combined statement, the county will need to include instructions for completing the statement and provide the county's mailing address, email address, and facsimile transmission number on the internet webpage containing the statement and instructions.

Ballot Tracking Messages - Signature Cures

Elections Code section 3019.7(a) requires the SOS to maintain a system that allows voters to track their vote-by-mail ballot. Section 3019.7(a)(5) was recently amended (Assembly Bill 827, Ch. 279, Stats. of 2025) to require an email or text notification if the voter's ballot cannot be counted because the voter's signature did not compare or the identification envelope is missing the voter's signature. The email or text notification shall include an internet website link to the required form for verifying or providing a signature, as applicable, and instructions for completion.

The SOS would like to collect the link for each county's webpage containing the required

information for signature cures. The SOS will create a webpage listing those links, which will be included in the ballot tracking messages, when applicable.

Please complete and return the attached survey via e-mail to rreece@sos.ca.gov or by fax to (916) 653-3214, no later than **Friday, March 13, 2026**.

If you have any questions, please contact Ryan Reece at rreece@sos.ca.gov.

Thank you.
