RE: Voter Notification Card: Working Group

The Secretary of State's Office (SOS) is exploring the redesign of the Voter Notification Card (VNC) which will be used statewide. The SOS will be leading a working group to guide the project from design to implementation. We would like to invite counties to participate in this working group to ensure a successful rollout of the VNC in 2019.

In order to maintain current records and determine which counties would like to have a representative in the working group, please provide your primary contact for VNC related issues and a working group participant, if any.
