1% Manual Tally

Per Elections Code Section 15360, 1% of precincts must be hand tallied to determine that the voting system is reading and tabulating votes correctly. To determine 1% of the precincts, divide the total number of precincts including mail ballot precincts, by 100. For November 3, 2020, there were 72 precincts, which means that .01 or 1 precinct must be fully counted. Additionally, one precinct must be counted for each contest that is on the ballot. As such, additional precincts are randomly selected for each contest that is not included in the initial count. For November, 2020, twelve additional precincts were tallied for individual contests. Votes cast in those precincts listed below were tallied including Vote-By-Mail ballots and Vote Center Ballots.
