To Susan Lapsley,

The Orange County Registrar of Voters conducted a manual tally of 1% of the precincts for the November 3, 2020 Presidential General Election. The manual tally included 63 precincts, and 53,163 total ballots. One variance was found during the manual tally, and it was found in precinct 59038, for the City of Irvine, Member City Council contest (which allows the voter to vote for no more than three selections). The voter had marked four selections, and the scanning system registered only two of the four marks as votes for candidates. The cause of the variance was that the voter did not fill in the voting targets completely as instructed, but instead used check marks that only intersected with a small portion of the voting targets.

Additionally, the Registrar of Voters conducted a ballot comparison risk-limiting audit, consisting of 2,442 ballots. No discrepancies were found during the risk-limiting audit. A detailed report of the risk-limiting audit has also been attached.

If you have any questions, please do not hesitate to ask.

Sincerely,

A handwritten signature in black ink, appearing to read "Neal Kelley".

Neal Kelley
Registrar of Voters
