

One Percent Manual Tally of Ballots in the Semifinal Official Canvass
March 3, 2020 Presidential Primary Election
Summary Report

In accordance with CA Elections Code § 15360, ballots cast in one percent of the 1,548 polling locations and in one percent of the mail ballot batches included in the semifinal official canvass of the March 3, 2020 Presidential Primary Election have been manually tallied in order to verify the accuracy of the County's voting system. Sixteen precincts and sixteen mail ballot batches were randomly selected by a member of the public and an additional draw was conducted to select another four mail ballot batches.

Seventeen (17) contests were not represented in the initially drawn precincts; thirteen (13) supplemental precincts were selected in which those contests were represented. For these supplemental precincts, only those contests not represented in the initially drawn precincts were manually tallied.

Twenty batches ("decks") of vote-by-mail ballots were selected to be manually tallied. Eleven (11) contests were not represented in these initial decks; ten (10) supplemental mail batches were selected in which those contests were represented. In these supplemental batches, only those contests not represented in the originally drawn batches were manually tallied.
