Precincts in the county for this election (attach list describing all precincts with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of precincts in the election	29
Total number of precincts selected for the manual tally	1

Batches of vote-by-mail or provisional ballots (attach list describing each batch with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of batches in the election	59
Total number of batches selected for the manual tally	1 voting precinct

Method used to choose precincts and batch of ballots to manually tally (include description of random selection method):

All voting precinct number were placed into a basket and drawn in view of public viewing window. (There were no observers of any kind present to watch the process). The first precinct number drawn was a small precinct that did not meet the 1% total needed to manually tally. A second precinct was drawn which met (and exceeded) the 1%.

attach additional pages if necessary

Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

No discrepancies noted in any precinct.

attach additional pages if necessary
