Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

During the 1% manual tally, we identified a few vote-by-mail (VBM) ballots that were placed in the Election Day ballot box without an envelope, which were subsequently scanned as poll ballots.

We identified each of those VBM ballots that were incorrectly scanned as poll ballots and corrected it through the manual vote adjustment feature.
