

REPORT OF 1% MANUAL TALLY
[Elections Code section 15360]

County: Santa Barbara

Election: November 8, 2022 General Electior

Manual tally method used: One Part [section 15360(a)(1)]
 Two Part [section 15360(a)(2)]

Date and time notice provided (attach copy of the notice):

October 8th and 9th of 2022 in the Santa Barbara News Press.

Internet website where additional information about the manual tally is posted, if applicable:

www.sbcvote.com

Date and time the manual tally commenced, beginning with the random selection of precincts and batches (must be after the close of the polls on Election Day):

Thursday, November 10, 2022 at 11:00 am

Date and time the manual tally finished:

Wednesday, November 23, 2022 at 12:30 pm

Estimated number of members of the public who observed the process:

9 Observers over the 13 days

Total number of ballots counted in this election (official canvass numbers):

Polling place / vote center ballots (including provisionals)	12,572
Vote-by-mail ballots	124,472

Total number of ballots manually tallied:

Polling place / vote center ballots (including provisionals)	335
Vote-by-mail ballots	385

Precincts in the county for this election (attach list describing all precincts with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of precincts in the election	297
Total number of precincts selected for the manual tally	28

Batches of vote-by-mail or provisional ballots (attach list describing each batch with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of batches in the election	352
Total number of batches selected for the manual tally	6

Method used to choose precincts and batch of ballots to manually tally (include description of random selection method):

Ran extract from EMS to get a list of precincts in the election. Imported into excel and assigned a unique identifier to each precinct. Using www.random.org website to generate a list of random numbers using the range of 1 through 297 (the total number of precincts). The first 3 precincts were identified as the 1% tallying all races. Once I identified which races were covered in the 1%, we continued to use www.random.org to generated lists until all contests were selected.

attach additional pages if necessary

Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

One discrepancy found - VBM Box 300 had Prop 29 which was tallied and found to be over 1 'NO' vote and short 1 'Under Vote'. The manual tally board re-tallied the races and came up wit the same numbers. We then reviewed all ballots and found one where the voter did not completely fill in the oval on Prop 29 'No' vote. Reviewed how the ballot was read and found it was tabulated as an marginal mark. Deleted the batch and Re-adjudicated ballot to give the vote for 'No'. The tally then balanced to what the board found..
