Total number of batches in the election	117
Total number of batches selected for the manual tally	(we tally by Precinct - not batch)

Method used to choose precincts and batch of ballots to manually tally (include description of random selection method):

Random draw of precinct numbers from a hat that contain 1% of votes cast, as well as every race and/or ballot type in the election.

*Plumas County IS ALL VOTE BY MAIL, and has been since 2016, so therefore we have no polling place/vote center ballots. We count each ballot in each precinct in order to match the number on Central Count/Tabulator report generated. We then manually tally the 1% of votes in all races on the ballot and each ballot type. The total number of ballot races that were manually tallied were 646.
