Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

There were discrepancies between the handcount and vote system count. All except for two were found to be human error during the handcount.

VBM batch 564 and batch 1022 were off by one vote each. The batches were reran and readjudicated. Afterwards, a recount confirmed the results and showed that the original discrepancy was due to an adjudication error.
