

**REPORT OF 1% MANUAL TALLY**  
**[Elections Code section 15360]**

County: YOLO

Election: March 5, 2024, Presidential Primary Election

RECEIVED  
California Secretary of State  
Elections Division  
MAR 27 2024

Manual tally method used:  One Part [section 15360(a)(1)]

Two Part [section 15360(a)(2)]

Date and time notice provided (attach copy of the notice):

Wednesday, February 28, 2024 9:00 a.m.

Internet website where additional information about the manual tally is posted, if applicable:

<https://www.yoloelections.org/news-and-publications/press-releases/march-5-2024-presidential-primary-election-update-manual-tally>

Date and time the manual tally commenced, beginning with the random selection of precincts and batches (must be after the close of the polls on Election Day):

Thursday, March 7, 2024 3:00 p.m.

Date and time the manual tally finished:

Tuesday, March 19, 2024 12:00 p.m.

Estimated number of members of the public who observed the process:

six (6)

Total number of ballots counted in this election (official canvass numbers):

Polling place / vote center ballots (including provisionals)	3522
Vote-by-mail ballots	49115

Total number of ballots manually tallied:

Polling place / vote center ballots (including provisionals)	553
Vote-by-mail ballots	4719

Precincts in the county for this election (attach list describing all precincts with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of precincts in the election	44
Total number of precincts selected for the manual tally	6

Batches of vote-by-mail or provisional ballots (attach list describing each batch with the number of ballots in each, indicating whether ballots are polling place / vote center, vote-by-mail, or provisional):

Total number of batches in the election	724
Total number of batches selected for the manual tally	122

Method used to choose precincts and batch of ballots to manually tally (include description of random selection method):

See the "Method of Selecting the Random Sample" section of the attached "Post-Election Manual Tally" and the "Dice Binning for Post-Election Audit-2024PPE" documents.

*attach additional pages if necessary*

Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

None.

*attach additional pages if necessary*

This report is submitted pursuant to Elections Code section 15360(f).

## March 5, 2024, Presidential Primary Election Update – Manual Tally

(Woodland, CA) – The Yolo County Elections Office will select the voting precincts to be included in the one percent manual tally for the March 5, 2024, Presidential Primary Election in accordance with California Elections Code.

The manual tally process validates the totaling of ballots generated by the electronic voting equipment before certifying election results. For each race not included in the one percent manual tally, an additional voting precinct with that contest will be tallied.

The public and media are invited to observe the voting precinct selection and the manual tally. Please note, due to the spacing in our office we must limit the number of members of the public that would like to observe. We recommend that any interested parties RSVP to [elections@yolocounty.org](mailto:elections@yolocounty.org) by March 5, 2024.

The selection of the precincts will take place on Thursday, March 7, 2024, at 3:00 p.m. at the Yolo County Elections Office (625 Court Street, Room B05, Woodland, CA). The manual tally will begin at 10:00 a.m. on Tuesday, March 12, 2024.

The Elections Office encourages residents to connect with Yolo County ACE – Assessor/Clerk-Recorder/Elections on Facebook: [@YoloACE](#), Instagram: [@YoloCoACE](#), Threads: [@YoloCoACE](#), YouTube: [@Yolo County ACE](#), TikTok: [@yolocoace](#) and X: [@YoloCoACE](#) to receive the most up to date information.

## Post-Election Manual Tally "The 1%"

### **Purpose of the 1% Manual Tally**

In accordance with Section 15360 of the California Elections Code, Yolo County Elections conducts a Post-Election Manual Tally (PEMT) of a portion of the vote-by-mail and in-person ballots included in the "semifinal official canvass." The semifinal official canvass begins at the close of polls on Election Night and ends when all in-person ballots cast at voting locations have been accounted for. Inclusion of provisional and conditional ballots is at the discretion of the Elections Official.

The ballots included in the manual tally are from precincts selected at random. The number of precincts chosen must be at least one percent of the total number of precincts. All contests must be audited in the PEMT. If any contest in the election is not included in the initial group of precincts, additional precincts will be randomly selected for a tally of those contests.

The manual tally of votes in a specific contest demonstrates that a human review of the voted ballots matches election results totaled by the central counting system. The vote-by-mail (VBM) ballots are tallied separately from the ballots voted in person at a Vote Center (VC) because these are separate reporting categories in the Statement of the Vote and are scanned separately in the central counting system. Any discrepancies in results must be explained and addressed by the Elections Official.

### **Method of Selecting the Random Sample**

The consolidated precincts in the election are numbered with consecutive numbers from 01 up to the actual number of voting precincts used in the election. The first precinct is numbered 01, the second precinct is numbered 02, and so on.

The random sample of precincts is picked using a set of three colored 10-sided dice (red, white, and blue) with 1-digit numerals from 0 to 9.

Tossing the three dice generates a 3-digit number from 000 to 999. Red is the first digit, white is the second digit, and blue is the third digit. The three dice number corresponds to a 3-digit number on the dice bin list. The dice bins are ranges of roll outcomes

assigned to various precincts for the random draw. Dice bins are generated for “three dice” using the Dice Binning Calculator for Post-Election Audits at <https://votingworks.github.io/dicebins/dicebins.html>

The dice are tossed until they show a number within the range of numbers on the dice bins.

For every contest not included in the original random sample, another sample is drawn as follows:

- (1) The precincts within each of the contests not included in the original sample are numbered consecutively from the dice bin, and the dice are thrown again to select the precinct for the random sample.
- (2) This process is repeated until enough precincts to represent all the contests have been selected randomly.

### **Chain of Custody and Required Reports**

Once the precincts are selected, the ballots that have been scanned, adjudicated and counted in the Hart InterCivic Verity Central and Count systems are manually tallied and compared with the reported results produced by the Hart InterCivic Verity Count. The results are sorted into two categories: vote-by-mail (VBM) ballots and in-person Vote Center (VC) ballots which include the Election Day ballots.

The Precinct Summary report from Verity Central is used by staff members to identify the workstation and batch where the selected precinct ballots were scanned. Using a copy of the Ballot Scanner Log from each scanning workstation and the Precinct Summary report, staff determines the scanner batch number from the Hart Verity Batch number and completes the Batch Chart for Pulling Ballots with the ballot card count for each ballot category in the precinct.

Staff always works in teams of two when handling voted ballots. The team verifies that the number of ballot cards pulled from a batch, or in the entire batch (when a batch has only one precinct), matches the number of precinct ballots in the Precinct Summary Report. The team logs the ballots removed from the batches in the Manual Tally Batch Pull Logs and stamps each ballot to identify the scanning workstation and batch from where it came. The ballots pulled from different batches are placed in a plastic batch bag and labeled with the ballot category and precinct number. If a batch is pulled containing only one precinct, the ballots are not stamped. The pulled ballots are placed into the bin for the correct precinct. This process must be methodical and cannot be rushed. It may take several days to a week to collect all in-person VC ballots and the batches of VBM ballots for the precincts randomly selected.

The Precinct Results report from Verity Count serves as the final vote total report for the manual tally. A custom Precinct Results report that includes only the selected precincts is used by staff. These reports are available to interested parties to demonstrate the transparency and integrity of the tally.

## **Tally Board Process**

The Tally Board receives a precinct "kit" containing either the VBM ballots or the in-person VC ballots from a selected precinct. The kit also includes a set of the appropriate blank tally sheets, a list of contests to tally, certificates of performance, and logs. The kit does not include the system's contest results for that precinct and ballot category. The manual tally supervisor or lead maintains the results reports. The system's results are not shared with the Tally Board before their manual tally for that contest.

Each contest is tallied completely before proceeding to the next contest on the ballot. Each candidate within a contest is tallied individually before moving on to the next candidate in the contest. To do so, the Tally Board will separate the ballots into piles for each candidate, including the certified write-in candidates, or for each measure voting choice, "Yes" or "No." Ballots with uncertified write-in candidates, overvotes, or undervotes are stacked into a pile deemed "other." This method is best for contests with more candidates than can fit onto a single tally sheet or that cannot be displayed at once on the table, since otherwise the "recorders" would have to search through many large tally sheets to find the candidate "called."

An alternate method (one-step method) does not separate the ballot cards by the voted choice. The votes for each candidate are tallied as they are drawn from the ballot cards in that precinct, rather than tallying all of the votes for candidate A before moving on to candidate B. If there are two small contests on the same ballot card page, both contests may be tallied simultaneously onto the appropriate tally sheet. For example, a candidate contest and a measure contest; two contests with unique candidates; etc.

The Tally Board consists of four clerks, each assigned a specific duty: caller, watcher, and two tally recorders. The "caller" calls out the candidate's name or voting choice on the ballot. The "watcher" simultaneously reads the voting choice to verify the correct call was made. The watcher may also stack the ballot cards into piles after each call. The two tally recorders mark the tally sheet as each voting choice is read. For every mark, the tally recorders call out the cumulative number of votes tallied.

If there are any discrepancies between the tally recorders, the Tally Board will stop the process and manually tally the last set of ballot cards again. When a contest's manual tally has been completed, the tally recorders write the total votes for each candidate or voting choice on the tally sheets.

## **Reconciling the Tally Board Results**

The Tally Board will present their results to the manual tally supervisor or lead who will compare the totals to the Precinct Results report.

If there are no discrepancies between the manual tally and the machine count, the Tally Board will move on to the next contest.

If there are discrepancies, the Tally Board will review the ballots related to the discrepancy. Any discrepancies that the Tally Board cannot resolve by a recount are escalated to the supervisor or lead for review. Any unresolved discrepancies in results must be explained and addressed by the Election Official. Examples include missing ballots that were not pulled initially but must be subsequently gathered for the Tally Board or if a voter didn't fill in their ballot choice correctly and the scanner could not read the voter's intent.

If all attempts to find missing ballots or incorrectly tabulated ballots fail, a clear and detailed note of the event and the steps taken are recorded in the logs. These notes will inform the Registrar of Voters when writing the PEMT report for submission to the California Secretary of State's office.
