Method used to choose precincts and batch of ballots to manually tally (include description of random selection method):

Using blackout canisters numbered 1 through 13, and 15 through 31, we randomly selected a canister to identify the vote center number for the vote center portion of the manual tally. We had 161 voting precincts for this election, including vote-by-mail ballots and Uniformed and Overseas Citizens absentee ballots. We assigned those precincts numbers 1 through 161 and ran a random generator on those numbers. To further randomize the selection, we ran the random number generator six times and then used a six-sided die to select which set we would utilize.

Report of 1 percent manual tally count per California Election Code Section 15360(e)

I, Ryan Ronco, County Clerk-Recorder-Registrar of Voters, County of Placer, State of California, do hereby certify that, on June 9, 2026, at 9:00 a.m., a manual tally began and was conducted and completed in conjunction with the June 2, 2026 Statewide Direct Primary Election.

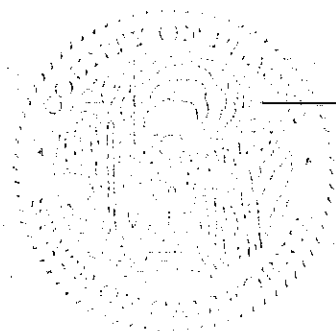

California Elections Code requires each local election official to conduct a manual count of all contests on ballots cast in a randomly-selected one percent of vote center and central count ballots to verify the accuracy of the machine count. This manual tally occurs during the vote-canvassing period prior to official certification of election results and augments extensive preelection testing activities to demonstrate the integrity of the vote tabulation system.

This report addresses the manual-count to machine-count comparison of a randomly-selected one percent of the central count and vote center scanners verses the hand count. With 30 vote centers, Placer County would need to randomly select one vote center to comply with Elections Code Section 15360. Using blackout canisters numbered 1 through 13 and 15 through 31, we randomly selected a canister to identify the vote center number for that portion of the manual tally. Vote center VC18 – Placer County Elections was selected. In addition, VC19 – The Old Firehouse was also included so all contests were represented in the tally.

We had 161 voting precincts containing vote-by-mail ballots and Uniformed and Overseas Citizens absentee ballots. We assigned those precincts numbers 1 through 161 and ran a random generator on those numbers. To further randomize the selection, we ran the random number generator six times and then used a six-sided die to select which set we would utilize. We needed to hand count a minimum of two precincts to comply; we performed the manual tally on seven precincts to include all contests. The precincts selected were 254401, 151110, 356040, 551501, 151105, 131103, and 511949. Our office did not include precinct 451114 in the manual tally as it contained less than 10 voted ballots. In addition, the following precinct was utilized for the manual tally: 356004.

The final number of ballots hand-counted for the manual tally this election totaled 7,996 and equals more than 5% of all ballots cast. The selected vote centers/precincts showed exact matching tallies between the manual tally and the election summary report. The entire manual tally was conducted in public view by hand without the use of electronic equipment; at no time during the manual tally process were the individuals who performed the manual tally informed of the corresponding machine tally results. Further, tally logs of the manual tally process were kept. An election notice was published in the legal section of newspapers in the jurisdiction to comply with notice requirements. Lastly, the entire manual tally process was completed prior to certification of the June 2, 2026, Statewide Direct Primary Election.

IN WITNESS WHEREOF I hereby set my hand and affix my official seal on this **29th day of June, 2026**, in accordance with the laws of the State of California.
