The California Elections Code sections relevant to election observation are included for reference. Some of the guidelines included below were drawn from the Secretary of State's General Rules for Observers as established in the Election Observer Panel Plan Template.

(c) The county elections official may limit the total number of representatives employed pursuant to subdivision (b) in attendance to no more than 10 by a manner in which each interested bona fide association of citizens or media organization has an equal opportunity to participate. All challenges shall be made prior to the opening of the identification envelope of the challenged vote by mail voter.

(c) The Secretary of State shall adopt regulations addressing the secure delivery and transfer of ballots to a receiving center or central counting place pursuant to this section.

(d) This section shall not be construed as relieving a precinct board of its responsibility to account for ballots pursuant to Section 14405.

Elections Code section 14221

Only voters engaged in receiving, preparing, or depositing their ballots and persons authorized by the precinct board to keep order and enforce the law may be permitted to be within the voting booth area before the closing of the polls.

However, if the precinct board member determines that the voter is attempting to interfere with the conduct of the election and does not require additional time to mark his or her ballot, the precinct board member may contact the elections official, who may order that the voter not be provided with additional time to mark his or her ballot.

Elections Code section 14227

A precinct board member shall take a regular ballot to that person, qualify that person to vote, and return the voted ballot to the polling place. In those precincts in which it is impractical to vote a regular ballot outside the polling place, vote by mail ballots shall be provided in sufficient numbers to accommodate physically handicapped persons who present themselves on election day. The vote by mail ballot shall be presented to and voted by a physically handicapped person in the same manner as a regular ballot may be voted by that person outside the polling place.

In any case, before making any use whatever of such a list or document, the member of the precinct board shall immediately contact the elections official, charged with the duty of conducting the election, and describe the contents of the document or list and the evidence, if any, received bearing on voting qualifications. The elections official shall advise the members of the precinct board as to the sufficiency of probable cause for instituting and substantiating the challenge and as to the law as herein provided, relating to hearings and procedures for challenges by members of the precinct board and determination thereof by a precinct board. Elections Code section 14245

If the challenge is on the ground that the person challenged has already cast a ballot for this election, a member of the precinct board shall tender to the person challenged this oath: "You do swear (or affirm) that you have not previously voted in this election, either by vote by mail ballot or at a polling place."

Elections Code section 14246

If the challenge is on the ground either that the person challenged is not the person whose name appears on the roster, or that he or she has voted that day, the challenge shall be determined in favor of the person challenged if that person takes the oath as set forth either in Section 14243 or 14245.

Elections Code section 14247

- (c) The grounds of each challenge.
- (d) The determination of the board upon the challenge, together with any written evidence pertaining thereto.
- (e) If evidence has been presented to the board requesting challenges, the evidence shall be returned to the elections official responsible for the conduct of the election.

Election Observations Rights and Responsibilities – September 2022

Canvass Process

Elections Code section 335.5

The "official canvass" is the public process of processing and tallying all ballots received in an election, including, but not limited to, provisional ballots and vote by mail ballots not included in the semifinal official canvass. The official canvass also includes the process of reconciling ballots, attempting to prohibit duplicate voting by vote by mail and provisional voters, and performance of the manual tally of 1 percent of all precincts.

Elections Code section 353.5

The "semifinal official canvass" is the public process of collecting, processing, and tallying ballots and, for state or statewide elections, reporting results to the Secretary of State on election night. The semifinal official canvass may include some or all of the vote by mail and provisional vote totals.

Elections Code section 15201

(a) As soon as the polls are closed, the precinct board shall, in the presence of the public do all of the following:

(1) Seal the container used to transport voted ballots and insure that the precinct number, or in an election conducted using a voter center, the vote center number, is designated on the ballot container.

(2) Certify, sign, and seal the several packages or envelopes as directed by the elections official.

(3) By not less than two of their number, deliver the ballot container and packages to the elections official at the central counting place in the manner prescribed by the elections official. Access to the area where electronic data processing equipment is being operated may be restricted to those persons authorized by the elections official.

Elections Code section 15272

The count shall be public and shall be continued without adjournment until completed and the result is declared. During the reading and tallying, the ballot read and the tally sheet kept shall be within the clear view of watchers.

Elections Code section 15301

The canvass shall commence no later than the Thursday following the election, shall be open to the public, and, for state or statewide elections, shall result in a report of

Election Observations Rights and Responsibilities – September 2022

results to the Secretary of State. The canvass shall be continued daily, Saturdays, Sundays, and holidays excepted, for not less than six hours each day until completed.

Vote-by-Mail Ballot Counting

Elections Code section 15104

(a) The processing of vote by mail ballot return envelopes, and the processing and counting of vote by mail ballots, shall be open to the public, both prior to and after the election.

(b) A member of the county grand jury, and at least one member each of the Republican county central committee, the Democratic county central committee, and of any other party with a candidate on the ballot, and any other interested organization, shall be permitted to observe and challenge the manner in which the vote by mail ballots are handled, from the processing of vote by mail ballot return envelopes through the counting and disposition of the ballots.

(c) The elections official shall notify vote by mail voter observers and the public at least 48 hours in advance of the dates, times, and places where vote by mail ballots will be processed and counted.

(d) Notwithstanding paragraph (2) of subdivision (b) of Section 2194, vote by mail voter observers shall be allowed sufficiently close access to enable them to observe the vote by mail ballot return envelopes and the signatures thereon and challenge whether those individuals handling vote by mail ballots are following established procedures, including all of the following:

(1) Verifying signatures on the vote by mail ballot return envelopes by comparing them to voter registration information.

(2) Duplicating accurately damaged or defective ballots.

(3) Securing vote by mail ballots to prevent tampering with them before they are counted on election day.

(e) A vote by mail voter observer shall not interfere with the orderly processing of vote by mail ballot return envelopes or the processing and counting of vote by mail ballots, including the touching or handling of the ballots.

Elections Code section 15105

Prior to processing and opening the identification envelopes of vote by mail voters, the elections official shall make available a list of vote by mail voters for public inspection, from which challenges may be presented. Challenges may be made for the same reasons as those made against a voter voting at a polling place. In addition, a challenge may be entered on the grounds that the ballot was not received within the time provided by this code or that a person is imprisoned for a conviction of a felony. All challenges shall be made prior to the opening of the identification envelope of the challenged vote by mail voter.

Elections Code section 15106

Except as otherwise provided, the processing of vote by mail ballot return envelopes, the processing and counting of vote by mail ballots, and the disposition of challenges of vote by mail ballots shall be according to the laws now in force pertaining to the election for which they are cast. Because the voter is not present, the challenger shall have the

Election Observations Rights and Responsibilities – September 2022

burden of establishing extraordinary proof of the validity of the challenge at the time the challenge is made.

Elections Code section 15109

Except as otherwise provided in this chapter, the counting and canvassing of vote by mail ballots shall be conducted in the same manner and under the same regulations as used for ballots cast in a precinct polling place.

Elections Code section 3019

(a) (1) Upon receiving a vote by mail ballot, the elections official shall compare the signature on the identification envelope with either of the following to determine if the signatures compare:

(A) The signature appearing on the voter's affidavit of registration or any previous affidavit of registration of the voter.

(B) The signature appearing on a form issued by an elections official that contains the voter's signature and that is part of the voter's registration record.

(2) All of the following apply to the comparison of signatures pursuant to this section:

(A) A presumption exists that the signature on the identification envelope, signature verification statement, unsigned ballot statement, or provisional ballot envelope is the voter's signature.

(B) An exact match is not required for an elections official to determine that a voter's signature is valid. The fact that signatures share similar characteristics is sufficient to determine that a signature is valid.

(C) Except as provided in subparagraph (D), the elections official shall consider explanations for discrepancies between signatures that are specified in regulations promulgated by the Secretary of State. For purposes of this subparagraph, explanations include a variation in signature style over time and the haste with which a signature is written.

(D) When comparing signatures, an elections official shall not review or consider a voter's party preference, race, or ethnicity.

(E) The elections official may consider characteristics of the written signature that are specified in regulations promulgated by the Secretary of State. For purposes of this subparagraph, characteristics include the slant of the signature, letter formation, and whether the signature is printed or written in cursive.

(F) The elections official may use facsimiles of voters' signatures, provided that the method of preparing and displaying the facsimiles complies with the law.

(G) In comparing signatures pursuant to this section, an elections official may use signature verification technology. If signature verification technology determines that the signatures do not compare, the signature is subject to the additional procedures described in paragraph (2) of subdivision (c).

(H) The variation of a signature caused by the substitution of initials for the first or middle name, or both, is not grounds for the elections official to determine that the signatures do not compare.

(I) A signature made using a mark such as an "X", or made by a signature stamp, shall be presumed valid and shall be accepted if the signature meets the requirements of Section 354.5.

Election Observations Rights and Responsibilities – September 2022

(b) If upon conducting the comparison of signatures pursuant to subdivision (a) the elections official determines that the signatures compare, the elections official shall deposit the ballot, still in the identification envelope, in a ballot container in the elections official's office.

(c) (1) If upon conducting the comparison of signatures pursuant to subdivision (a) the elections official determines that the signature possesses multiple, significant, and obvious differing characteristics when compared to all signatures in the voter's registration record, the signature is subject to the additional procedures described in paragraph (2).

(2) If the elections official makes the determination described in paragraph (1), the signature shall be rejected only if two additional elections officials each find beyond a reasonable doubt that the signature differs in multiple, significant, and obvious respects from all signatures in the voter's registration record. If the officials determine that the signatures do not compare, the identification envelope shall not be opened and the ballot shall not be counted. The elections official shall write the cause of the rejection on the face of the identification envelope only after completing the procedures described in subdivision (d).

(d) (1) (A) Except as provided in subparagraph (D), on or before the next business day after a determination that a voter's signature does not compare pursuant to subdivision (c), but not later than eight days prior to the certification of the election, the elections official shall send by first-class mail notice to the voter of the opportunity to verify the voter's signature no later than 5 p.m. two days prior to the certification of the election. The notice shall include a return envelope, with postage paid, for the voter to return a signature verification statement.

(B) Unless required pursuant to Section 3026, the elections official may send additional written notices to a voter identified pursuant to subdivision (c), and may also notify the voter in person, by telephone or email, or by other means of the opportunity to verify the voter's signature.

(C) Unless required pursuant to Section 3026, the elections official may use any information in a county's election management system, or otherwise in the election official's possession, for the purpose of notifying the voter of the opportunity to verify the voter's signature.

(D) If it is impracticable under the circumstances for the elections official to send the notice described in subparagraph (A) on or before the next business day, including in the event of technological failure, the elections official shall send the notice as soon as practicable, but not later than eight days prior to the certification of the election.

(2) The notice and instructions shall be in substantially the following form:
"READ THESE INSTRUCTIONS CAREFULLY. FAILURE TO FOLLOW THESE INSTRUCTIONS MAY CAUSE YOUR VOTE BY MAIL BALLOT NOT TO COUNT."

1. We have determined that the signature you provided on your vote by mail ballot does not compare with the signature(s) on file in your voter record. (B) Upon receipt of the signature verification statement, the elections official shall compare the signature on the statement with the signature on file in the voter's record.

(i) If upon conducting the comparison of signatures the elections official determines that the signatures compare, the elections official shall deposit the ballot, still in the identification envelope, in a ballot container in the elections official's office.

(ii) If, under the standards and procedures of subdivision (c), a determination is made that the signatures do not compare, the identification envelope shall not be opened and the ballot shall not be counted. (a) "One percent manual tally" is the public process of manually tallying votes in 1 percent of the precincts, selected at random by the elections official, and in one precinct for each race not included in the randomly selected precincts. This procedure is conducted during the official canvass to verify the accuracy of the automated count

(iii)(I) In addition to the 1 percent manual tally of the vote by mail ballots, the elections official shall, for each race not included in the initial 1 percent manual tally of vote by mail ballots, count one additional batch of vote by mail ballots. The manual tally shall apply only to the race not previously counted.

(II) The elections official may, at his or her discretion, select additional batches for the manual tally, which may include vote by mail and provisional ballots.

(b) If vote by mail ballots are cast on a direct recording electronic voting system at the office of an elections official or at a satellite location of the office of an elections official pursuant to Section 3018, the official conducting the election shall either include those ballots in the manual tally conducted pursuant to paragraph (1) or (2) of subdivision (a) or conduct a public manual tally of those ballots cast on no fewer than 1 percent of all the direct recording electronic voting machines used in that election chosen at random by the elections official.

(f) The official conducting the election shall include a report on the results of the 1 percent manual tally in the certification of the official canvass of the vote. This report shall identify any discrepancies between the machine count and the manual tally and a description of how each of these discrepancies was resolved. In resolving a discrepancy involving a vote recorded by means of a punchcard voting system or by electronic or

Election Observations Rights and Responsibilities – September 2022

electromechanical vote tabulating devices, the voter verified paper audit trail shall govern if there is a discrepancy between it and the electronic record.

Risk Limiting Audits

Elections Code section 15365

The purpose of this article is to provide elections officials with a method to conduct a comprehensive verification of election outcomes through the post-election audit process. This article shall remain in effect only until January 1, 2023, and as of that date is repealed.

Elections Code section 15366

As used in this article, the following terms have the following meanings:

(a) “Ballot” means original, voter-verifiable paper ballots, including voter-marked paper ballots whether marked manually or via a ballot marking device or system, and, where direct recording electronic (DRE) voting systems are used, the voter-verifiable paper audit trail (VVPAT). It does not mean electronic versions of ballots, digital images of ballots, or paper printouts of ballot images or digital cast vote records.

(b) “Ballot-level comparison audit” means a type of risk-limiting audit that involves both of the following steps:

(1) The elections official uses an independent system to verify that the cast vote records created by the voting system or ballots created independent from the tally or ballot marking system yield the same election results as those reported by the voting system.

(2) The elections official compares some or all of those cast vote records to a hand-to-eye, human interpretation of voter markings from the corresponding ballot marked by the voter or the voter verified paper audit trail, as defined by Section 19271.

(c) “Ballot polling audit” means a type of risk-limiting audit in which elections officials examine voter markings on randomly selected ballots seeking strong evidence that the reported tabulation outcome is correct.

(d) “Cast vote record” means an auditable document or electronic record that purports to reflect the selections a voter made on a ballot. It lists the contests on the ballot and the voter’s selections in each of those contests.

(e) “Electoral outcome” means the winner or winners of an election contest or whether a measure passed. It does not mean the numerical vote totals.

(f) “Risk-limiting audit” means a post-election process that involves hand-to-eye, human inspection of ballots in such a manner that if a full manual tally of all the ballots cast in the contest would show different outcomes than the results reported by the voting system, there is at most a five percent chance that the post-election process will not lead to such a full manual tally. If this post-election process does lead to a full manual tally, the winner or winners according to that full manual tally replace the winner or winners as reported by the voting system if they differ.

Elections Code section 15367

Election Observations Rights and Responsibilities – September 2022

(a) (1) Commencing with the statewide general election held on November 3, 2020, the elections official conducting an election may conduct a risk-limiting audit during the official canvass of any election in accordance with the requirements of this article.

(2) Participating counties shall conduct a risk-limiting audit on one or more contests fully contained within the county's borders. A participating county may exclude any contest that has been subject to a risk-limiting audit from the one-percent manual tally required by Section 15360.

(3) Commencement of the audit and selection of ballots for the audit shall not occur before the reporting of the results to which the contests are being audited. The Secretary of State shall define in regulations how all ballots, including provisional ballots and vote by mail ballots whose status has not yet been resolved, shall be taken into account in the audit to ensure that if a full manual tally of the votes on all validly cast ballots would show an electoral outcome that differs from the reported outcome, there is at most a five percent chance that the audit will not require such a tally.

(4) An elections official is in compliance with this section if the elections official conducts a ballot-level comparison audit, or ballot polling audit, with a five percent risk limit or a risk-limiting audit with a five percent risk limit using another method for conducting risk-limiting audits as approved by the Secretary of State.

(b) (1) The Secretary of State, in consultation with recognized statistical experts, election verification and integrity stakeholders, voting system manufacturers, and local elections officials, shall adopt regulations to implement and administer this article.

(2) The regulations shall do all of the following:

(A) Require elections officials to establish appropriate audit boards and procedures to conduct the risk-limiting audits.

(B) Establish criteria for public education on risk-limiting audits.

(C) Establish procedures to ensure the security of the ballots, the selection of ballots to be inspected during each audit, and the rules governing cast vote records and other data involved in risk-limiting audits.

(D) Establish the calculations and other methods to be used in the audit to determine whether or when the audit of any contest is required to include the examination of more ballots, and to establish calculations and methods to be used in such an escalation, and to determine whether and when the audit of each contest is complete.

(E) Establish procedures and requirements for testing and disclosing the algorithms and source code of any software used by the Secretary of State for the selection of ballots to be included when elections officials conduct risk-limiting audits under this article.

(F) Establish requirements for the content of the risk-limiting audit report required by subdivision (d).

(G) Establish procedures and requirements to ensure the audit process is observable and verifiable by the public, including disclosing the methods used to select samples and to calculate the risk, providing public opportunity to verify that the correct ballots were inspected during the audit, and providing public opportunity to observe the inspection of the voters' marks on the ballots during the audit.

(c) The risk-limiting audit shall be a public and observable process, with the elections official providing at least a five-day public notice of the time and place of both the risk-

limiting audit and the selection of the ballots to be used when conducting the risk-limiting audit.

(d) The elections official conducting the risk-limiting audit shall publish a report on the results of the risk-limiting audit in the certification of the official canvass of the vote.
