

The American Independent Party is the fastest growing movement in California.

Voters are increasingly embracing our fresh approach to foster a more productive conversation. Our principles in promoting a healthy democracy require independent thinking and rejecting partisan polarization.

Informed Citizenship

- Freedom of independent thought
- Civic participation and respectful conversation
- Positive engagement using a constructive voice

The antiquated two-party system has failed.

Californians are rejecting politics-as-usual and are leaving the State. Real candidates discuss important issues with the People. They have honesty and integrity, and work hard to unite us. Our votes should never be taken for granted.

We deserve better.

Stronger Accountability

- Transparent stewardship of public resources
- Inspirational public service and volunteerism
- Elect leaders that implement effective solutions

Join the fastest growing movement in California and register to vote AI.
