¹The figures given are unofficial but are based on U.S. Census data, as adjusted by information from the California Department of Finance and the California Department of Corrections and Rehabilitation.

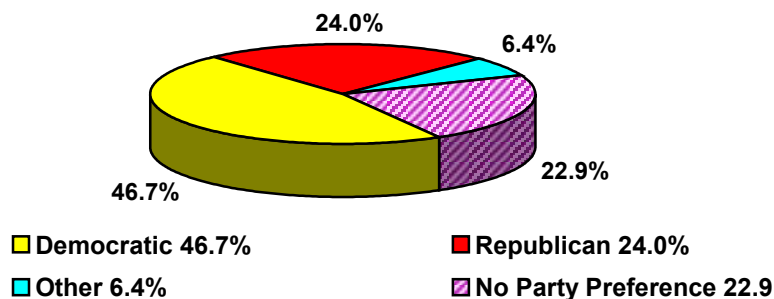

²Due to the delay in Census information as a result of the COVID-19 pandemic which subsequently affected the release of redistricting maps by the California Citizens Redistricting Commission, this 154-Day Report of Registration contains the number of voters, by party preferences, in each county, city, and unincorporated area. The 88-Day Report of Registration will include the number of voters, by party preferences, in each Supervisorial, State Senate, State Assembly, Board of Equalization, and Congressional District.

³The 2002 Statewide Direct Primary was conducted in March rather than June.

¹Since September 26, 2016, 16- and 17-year-olds can pre-register to vote. Once they turn 18, they become automatically registered. Pre-registered voters may be activated before their 18th birthday if they will be 18 in an upcoming election. Those pre-registered voters were not eliminated from pre-registration statistics since they remain pre-registrants until their 18th birthday. Therefore, some voters are counted in both pre-registration and active registration statistics.
