## Background

The Voter's Choice Act (VCA), established by Senate Bill 450 (Allen, Hertzberg, et al., Chapter 832, Statutes of 2016), aims to enhance voting accessibility in California. This legislation introduces a voter-centered model designed to increase electoral participation and provide voters with more flexible options for civic engagement.

Key features of the VCA's modernized election system include:

- Automatic mail-in ballots for all active, registered voters
- Extended in-person early voting periods of up to 10 days
- County-wide vote centers allowing ballot casting at any location within the voter's county
- Convenient, secure ballot drop box locations throughout each county

To implement this system, the VCA mandates that counties develop a comprehensive Election Administration Plan (EAP). This plan serves two primary purposes:

1. Informing voters about their expanded voting options
2. Outlining strategies for voter education and community outreach

The VCA emphasizes community involvement in the electoral process. It requires county election officials to actively seek and incorporate community input in planning and administering elections, ensuring that diverse voices are heard in shaping local voting systems.

### *Interpretive Note on Data Limitations*

---

*This report provides descriptive statistics drawn from the state’s VoteCal database, as required by Elections Code section 4005(g)(1)(A). While it presents detailed comparisons across counties, voting methods, and voter demographics, the report does not evaluate the causes of these observed differences. The data should not be interpreted as demonstrating the effects of the Voter’s Choice Act or any other policy change. Further research would be necessary to assess causal impacts using appropriate analytic methods.*

<sup>4</sup>**Returned Rejectable Ballots** - include all Vote-by-Mail (VBM) ballots, Conditional Voter Registration (CVR) provisional ballots, and regular provisional ballots returned by voters. Other ballot types—such as Vote Center regular Ballots and non-provisional same-day CVR ballots—are not subject to rejection, as they are considered counted upon issuance.

**Ballots Rejected** - refers to the number of VBM ballots, same-day CVR provisional ballots, and regular provisional ballots that were rejected.

**Rejection Rate** - is calculated by dividing the total number of rejected VBM, same-day CVR provisional, and regular provisional ballots by the total number of VBM ballots returned, CVR provisional ballots cast, and regular provisional ballots cast.
