Background

The Voter’s Choice Act (VCA), established by Senate Bill 450 (Chapter 832, Statutes of 2016), aims to enhance voting accessibility in California by introducing a vote-center model designed to increase electoral participation and provide voters with more flexible options for civic engagement. The key features of the VCA model include centralized vote centers to allow voters to cast a ballot at any location within the voter’s county, extended in-person early voting periods of up to 10 days before the election, and additional secure ballot drop box locations. The VCA also emphasizes community involvement in the electoral process by requiring county elections officials to actively seek and incorporate community input in planning and administering elections, ensuring that diverse voices are heard in shaping local voting systems. In addition, counties implementing the VCA model are required to develop a comprehensive Election Administration Plan related to vote centers and drop boxes and their proximity to a variety of elements, including public transportation, population centers, and other community demographics and include a plan outlining strategies for voter education and community outreach and informing voters about their voting options.

The first election to be conducted by counties under the VCA model was the November 6, 2018, General Election. The five pilot counties (Madera, Napa, Nevada, Sacramento, and San Mateo) represented 1,380,981 (7.0%) of California’s registered voters. A total of 29 counties used the VCA model in the November 4, 2025, Statewide Special Election, including more than 18 million registered voters—which is approximately 78% of the state’s electorate.

This Report

Elections Code section 4005(g)(1)(A) requires the Secretary of State to report to the Legislature within six months of each election conducted under the VCA, all of the following information by categories of race, ethnicity, language preference, age, gender, disability, permanent vote by mail status, historical polling place voters, political party affiliation, and language minorities as it relates to the languages required under Elections Code section 14201(a) and Section 203 of the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10101 et seq.):

- (i) Voter turnout.
- (ii) Voter registration.
- (iii) Ballot rejection rates.
- (iv) Reasons for ballot rejection.
- (v) Provisional ballot use.
- (vi) Accessible vote by mail ballot use.
- (vii) The number of votes cast at each vote center.
- (viii) The number of ballots returned at ballot drop-off locations.
- (ix) The number of ballots returned by mail.
- (x) The number of persons who registered to vote at a vote center.
- (xi) Instances of voter fraud.
- (xii) Any other problems that became known to the county elections official or the Secretary of State during the election or canvass.

This report includes aggregate data for the 12 categories listed above by age, language preference, and political party as identified in voter registration records in the statewide voter registration system, VoteCal. All voter registration totals are taken from the Secretary of State’s 15-Day Report of Registration for the November 4, 2025, Statewide Special Election.

Separate supplemental reports related to race, ethnicity, gender, and language will be provided using quantitative and qualitative research methods, as this data is not required to register to vote and therefore not available in state voter registration records. One report will include data by race and ethnicity for voter registration, voter turnout, ballot rejection rates, number of votes cast at each vote center or polling place, number of ballots returned at a ballot drop-off locations, number of ballots returned by mail, and number of persons who registered to vote at a vote center. A second report will present quantitative data on the voter experiences of registered voters in VCA counties.

(xi) Instances of Voter Fraud

While at the time of this report, there were no confirmed instances of voter fraud for the November 4, 2025, Statewide Special Election.

(xii) Any other problems that became known to the county elections official or the Secretary of State during the election or canvass

A post-election analysis from reports within the Secretary of State’s office and communications with county elections offices yielded the following issues that arose during the 2025 November Special Election:

- Various precincts reported long lines at the close of polls, particularly at polling locations on college campuses.
- A correction notice was mailed to approximately 8.5 million voter households in response to the discovery of a map labeling error by the Legislative Analyst’s Office (LAO) in the state Voter Information Guide (VIG). A proposed congressional district contained in the map provided by the LAO was inadvertently labeled as District 22 instead of District 27. A separate map provided by the LAO and included in the VIG correctly identified District 27. To ensure voters received accurate information, a correction postcard was mailed to affected voter households who received the VIG with the typographical error.
