July 1, 2002

Mr. John A. Perez, Chairman
Voting Modernization Board
C/o Secretary of State Elections Division
1500 11th Street
Sacramento, CA 95814

Dear Chairman Perez:

At the June 19, 2002 meeting of the Voting Modernization Board, I was asked to prepare a summary of Nevada County's transition from a punch card voting system to the optical scan system currently in use.

I regret to report that I was not the Clerk-Recorded during the transition period in 1993, and I cannot locate any files or reports that might provide information about implementing the new technology, training voters and pollworkers, etc. There is one staff member still working here who was in the Elections Office during that time, but she can recall no details that might be helpful.

It appears I will receive an "F" for this homework assignment.

Sincerely,

Lorraine Jewett-Burdick
County Clerk-Recorder
